Music Musicians In Nineteenth Century Italy:

Music & Musicians in Nineteenth-century Italy John Rosselli,1991 This book presents a grassroots view of the daily musical life of the Italian people throughout the 19th century The author demonstrates that Italians of all walks of life from Sicilian fisherfolk to Venetian aristocrats shared a common and eclectic musical tradition that ranged from the rustic shepherd s pipe tunes to the greatest opera arias

The Cambridge History of Nineteenth-Century Music Jim Samson,2001-12-03 This comprehensive overview of music in the nineteenth century draws on the most recent scholarship in the field It avoids mere repertory surveys focusing instead on issues which illuminate the subject in novel and interesting ways The book is divided into two parts 1800 1850 and 1850 1900 each of which approaches the major repertory of the period by way of essays investigating the intellectual and socio political history of the time The music itself is discussed in five central chapters within each part amplified by essays on topics such as popular culture nationalism genius and the emergent concept of an avant garde The book concludes with an examination of musical styles and languages around the turn of the century The addition of a detailed chronology and extensive glossaries makes this the most informed reference book on nineteenth century music currently available

The Operatic State Ruth Bereson,2003-09-02 The Operatic State examines the cultural financial and political investments that have gone into the maintenance of opera and opera houses in Europe the USA and Australia It analyses opera s nearly immutable form throughout wars revolutions and vast social changes throughout the world Bereson argues that by legitimising the power of the state through universally recognised ceremonial ritual opera enjoys a privileged status across three continents often to the detriment of popular and indigenous art forms

Reader's Guide to Music Murray Steib,2013-12-02 The Reader s Guide to Music is designed to provide a useful single volume guide to the ever increasing number of English language book length studies in music Each entry consists of a bibliography of some 3 20 titles and an essay in which these titles are evaluated by an expert in the field in light of the history of writing and scholarship on the given topic The more than 500 entries include not just writings on major composers in music history but also the genres in which they worked from early chant to rock and roll and topics important to the various disciplines of music scholarship from aesthetics to gay lesbian musicology

Women Making Music Jane M. Bowers,Judith Tick,1986 Do look after my music Irene Wienawska Polowski exclaimed before her death in 1932 And from the urgency of that sentiment the authors here have taken their cue to reveal and look after the previously neglected contributions of women throughout the history of Western art music The

first work of its kind *Women Making Music* presents biographies of outstanding performers and composers as well as analyses of women musicians as a class and provides examples of music from all periods including medieval chant Renaissance song Baroque opera German lieder and twentieth century composition Unlike most standard historical surveys the book not only sheds light upon the musical achievements of women it also illuminates the historical contexts that shaped and defined those achievements

The Little Slaves of the Harp John E. Zucchi,1998-05 During the nineteenth century child musicians could be seen performing in the streets of cities across Europe and North America Although they came from a number of countries Italians were most associated with street music In *The Little Slaves of the Harp* John Zucchi tells the story of the thousands of Italian children who were indentured to padrone and then uprooted from their villages in central and southern Italy and taken to Paris London and New York to perform as barrel organists harpists violinists fifers pipers and animal exhibitors

The New Grove Dictionary of Music and Musicians: Pohlman to Recital Stanley Sadie,John Tyrrell,2001 This reference classic has approximately doubled in size since its last publication 20 years ago and the expansion involves more than the thorough revision and addition of articles about music of the past More articles about 20th century composers and composer performers have been added as well as topical articles about the gender related multicultural and interdisciplinary ways that music is now being studied Add to these changes that New Grove is also available online making it a source that would have made its many faceted creator Sir George Grove proud Outstanding reference sources American Libraries May 2002

Valuing Nineteenth-Century Italian Opera Fantasias for Woodwind Instruments Rachel N. Becker,2024-03-29 This book approaches opera fantasias instrumental works that use themes from a single opera as the body of their virtuosic and flamboyant material both historically and theoretically concentrating on compositions for and by woodwind instrument performers in Italy in the nineteenth century Important overlapping strands include the concept of virtuosity and its gradual demonization the strong gendered overtones of individual woodwind instruments and of virtuosity the distinct Italian context of these fantasias the presentation and alteration of opera narratives in opera fantasias and the technical and social development of woodwind instruments Like opera itself the opera fantasia is a popular art form stylistically predictable yet formally flexible based heavily on past operatic tradition and prefabricated materials Through archival research in Italy theoretical analysis and exploration of European cultural contexts this book clarifies a genre that has been consciously stifled and societal resonances that still impact music reception and performance today
