## **Murder Most Beastly:**

**Murder Most Beastly** Melissa Cleary, 1996-01-01 College film professor Jackie Walsh and her crime solving canine Jake become involved in an investigation at the local zoo when Jackie's friend Marcella goes undercover to expose wildlife abuse and discovers a murdered zookeeper Original [The Animal-Lover's Book of Beastly Murder](#) Patricia Highsmith, 2012-05-28 Grisly and atmospheric these stories feature small worlds of animal amorality in which the sweet taste of revenge leaves no aftertaste of guilt Publishers Weekly Nowhere is Patricia Highsmith's affinity for animals more apparent than in *The Animal Lover's Book of Beastly Murder* for here she transfers the murderous thoughts and rages most associated with humans onto the animals themselves You will meet for example in *In the Dead of Truffle Season* a truffle hunting pig who tries to whet his own appetite for a while or *Jumbo in Chorus* a lonely old circus elephant who decides she had enough of show business and cruel trainers for one lifetime In this satirical reprise of Kafka cats dogs and breeding rodents are no longer ordinary beings in the happy home but actually have the power to destroy the world in which we live

**Mystery Women, Volume Three (Revised)** Colleen Barnett, 2010-12-31 Like other fictional characters female sleuths may live in the past or the future They may represent current times with some level of reality or shape their settings to suit an agenda There are audiences for both realism and escapism in the mystery novel It is interesting however to compare the fictional world of the mystery sleuth with the world in which readers live Of course mystery readers do not share one simplistic world They live in urban suburban and rural areas as do the female heroines in the books they read They may choose a book because it has a familiar background or because it takes them to places they long to visit Readers may be rich or poor young or old conservative or liberal So are the heroines What incredible choices there are today in mystery series This three volume encyclopedia of women characters in the mystery novel is like a gigantic menu Like a menu the descriptions of the items that are provided are subjective Volume 3 of *Mystery Women* as currently updated adds an additional 42 sleuths to the 500 plus who were covered in the initial Volume 3 These are more recently discovered sleuths who were introduced during the period from January 1 1990 to December 31 1999 This more than doubles the number of sleuths introduced in the 1980s 298 of whom were covered in Volume 2 and easily exceeded the 347 series and some outstanding individuals described in Volume 1 which covered a 130 year period from 1860 1979 It also includes updates on those individuals covered in the first edition changes in status short reviews of books published since the first edition through December 31 2008 [Sleuths in Skirts](#) Frances A. DellaCava, Madeline H. Engel, 2002 This volume is a comprehensive collection of critical essays on *The Taming of the Shrew* and includes extensive discussions of the play's various printed versions and its theatrical productions Aspinall has included only those essays that offer the most influential and controversial arguments surrounding the play The issues discussed include gender authority female autonomy and unruliness courtship and marriage language and speech and performance and theatricality [Sequels](#) Janet G. Husband, Jonathan F.

Husband, 2009 A guide to series fiction lists popular series identifies novels by character and offers guidance on the order in which to read unnumbered series *A Very Eligible Corpse* Annie Griffin, 1998 Mystery series debut Aside from their age early sixties these two sisters couldn't be more different But when Kiki's latest love interest is killed they find themselves on common ground in trying to solve the murder Kiki herself argued with Arnold Lempke the night before his death and she doesn't have an alibi It doesn't help that she lied to and flirted with police at the murder scene So Hannah agrees to help her sister prove her innocence **Bowker's Guide to Characters in Fiction 2007**, 2008-02 **Detecting Women 2** Willetta L. Heising, 1996 Lists over 3 400 mystery titles written by women in correct series order as well as more than 600 series detectives created by women and more Titles are indexed by mystery type and series setting *Deathday Party* Paula Carter, 1999 The decorating duo of deduction is back A local psychic hires Hillary and Jane to supply a banquet in honor of her late great aunt When they arrive the young psychic and others meet their demise And when a flash flood leaves Hillary and Jane stranded in the house they are plagued by nocturnal visitors This book includes Hillary's secret recipe for brandy sauce No Place Like Home Sherry Lewis, 1996 When his son is accused of killing the new boyfriend of his ex wife 73 year old Fred a lifelong resident of Cutler turns to the one source that he knows will eventually reveal the truth the small town gossip mill From the author of No Place For Secrets **Death Wore a Fabulous New Fragrance** Orland Outland, 1998 If Sherlock Holmes wore high heels If Sam Spade found the right shade If Miss Marple had a clue about applying makeup they wouldn't be half as divine as Doan McCandler and Binky Van de Kamp San Francisco's most dazzling detective team is back and better than ever Doan's the slinkiest sleuth to ever slip into a slip His best friend Binky is a trust fund darling with a taste for Tiffany's and a craving for La Croix They'd like to live as large as they sleuth but catering to high class tastes on a temp job budget can be such a drag So now after a stunning debut as detectives with killer wardrobes the decadent duo are going into business for themselves as the private investigation agency of McCandler Van de Kamp Inc Binky's latest temp job is murder literally when her movie star employer drops dead with a single spritz of his own cologne Sure it stinks but it leads to the first paid investigation of Doan and Binky's career nothing to sneeze at The plucky pair follow their noses to Hollywood where secrets are nipped and lies are tucked Starstruck or not Doan and Binky smell something rotten in the state of California Provided by publisher *Tiger Bone & Rhino Horn* Richard Ellis, 2013-02-22 In parts of Korea and China moon bears black but for the crescent shaped patch of white on their chests are captured in the wild and brought to bear farms where they are imprisoned in squeeze cages and a steel catheter is inserted into their gall bladders The dripping bile is collected as a cure for ailments ranging from an upset stomach to skin burns The bear may live as long as fifteen years in this state Rhinos are being illegally poached for their horns as are tigers for their bones thought to improve virility Booming economies and growing wealth in parts of Asia are increasing demand for these precious medicinals Already endangered species are being sacrificed for temporary treatments for nausea and erectile dysfunction Richard Ellis one of the world's

foremost experts in wildlife extinction brings his alarm to the pages of Tiger Bone Rhino Horn in the hope that through an exposure of this drug trade something can be done to save the animals most direly threatened Trade in animal parts for traditional Chinese medicine is a leading cause of species endangerment in Asia and poaching is increasing at an alarming rate Most of traditional Chinese medicine relies on herbs and other plants and is not a cause for concern Ellis illuminates those aspects of traditional medicine but as wildlife habitats are shrinking for the hunted large species the situation is becoming ever more critical One hundred years ago there were probably 100 000 tigers in India South China Sumatra Bali Java and the Russian Far East The South Chinese Caspian Balinese and Javan species are extinct There are now fewer than 5 000 tigers in all of India and the numbers are dropping fast There are five species of rhinoceros three in Asia and two in Africa and all have been hunted to near extinction so their horns can be ground into powder not for aphrodisiacs as commonly thought but for ailments ranging from arthritis to depression In 1930 there were 80 000 black rhinos in Africa Now there are fewer than 2 500 Tigers bears and rhinos are not the only animals pursued for the sake of alleviating human ills the list includes musk deer sharks saiga antelope seahorses porcupines monkeys beavers and sea lions but the dwindling numbers of those rare species call us to attention Ellis tells us what has been done successfully and contemplates what can and must be done to save these animals or sadly our children will witness the extinction of tigers rhinos and moon bears in their lifetime
