The Narrative Voice In The Theogony Of Hesiod Kathryn Stoddard,2004-01-01 This volume analyzes the narrative structure of the Theogony to support the argument that this poem is a didactic poem explaining the position of man in the divine universe It discusses how Hesiod employs narratological devices to achieve his purposes

The Travelog of a Muse Will F. Muse,1927 *How Women Became Poets* Emily Hauser,2025-11-04 How the idea of the author was born in the battleground of gender When Sappho sang her songs the only word that existed to describe a poet was a male one aoidos or singer man The most famous woman poet of ancient Greece whose craft was one of words had no words with which to talk about who she was and what she did In *How Women Became Poets* Emily Hauser rewrites the story of Greek literature as one of gender arguing that the ways the Greeks talked about their identity as poets constructed played with and broke down gender expectations that literature was for men alone Bringing together recent studies in ancient authorship gender and performativity Hauser offers a new history of classical literature that redefines the canon as a constant struggle to be heard through and sometimes despite gender Women as Virginia Woolf recognized need rooms of their own in order to write So too have women writers through history needed a name to describe what it is they do Hauser traces the invention of that name in ancient Greece exploring the archaeology of the gendering of the poet She follows ancient Greek poets philosophers and historians as they developed and debated the vocabulary for authorship on the battleground of gender building up and reinforcing the word for male poet then in response creating a language with which to describe women who write Crucially Hauser reinserts women into the traditionally all male canon of Greek literature arguing for the centrality of their role in shaping ideas around authorship and literary production
