New Constitutional Order:

The New Constitutional Order Mark Tushnet, 2009-02-09 In his 1996 State of the Union Address President Bill Clinton announced that the age of big government is over Some Republicans accused him of cynically appropriating their themes while many Democrats thought he was betraying the principles of the New Deal and the Great Society Mark Tushnet argues that Clinton was stating an observed fact the emergence of a new constitutional order in which the aspiration to achieve justice directly through law has been substantially chastened Tushnet argues that the constitutional arrangements that prevailed in the United States from the 1930s to the 1990s have ended We are now in a new constitutional order one characterized by divided government ideologically organized parties and subdued constitutional ambition Contrary to arguments that describe a threatened return to a pre New Deal constitutional order however this book presents evidence that our current regime's animating principle is not the old belief that government cannot solve any problems but rather that government cannot solve any more problems Tushnet examines the institutional arrangements that support the new constitutional order as well as Supreme Court decisions that reflect it He also considers recent developments in constitutional scholarship focusing on the idea of minimalism as appropriate to a regime with chastened ambitions Tushnet discusses what we know so far about the impact of globalization on domestic constitutional law particularly in the areas of international human rights and federalism He concludes with predictions about the type of regulation we can expect from the new order This is a major new analysis of the constitutional arrangements in the United States Though it will not be received without controversy it offers real explanatory and predictive power and provides important insights to both legal theorists and political scientists

Hong Kong's New Constitutional Order Yash P. Ghai, 1997 This is the first systematic analysis of the constitutional legal economic social and political systems of Hong Kong as a special administrative region of China It examines the Basic Law against its historical and socio economic contexts including its international and domestic foundations and the loss and the resumption of sovereignty by China The author offers a conceptualization of the Basic Law and locates it within China's constitutional political and legal systems The book explores the balance as well as the tensions between the autonomy of Hong Kong and the sovereignty of China which are aggravated by the necessity to accommodate contrasting economic and political systems It also identifies key legal and political problems that are likely to arise in implementing the Basic Law and suggests an approach to its interpretation The Basic Law provides a fascinating example of the interaction of widely different traditions of law politics and economy and a novel system of autonomy Its study is therefore of great interest to scholars of comparative law and politics

military security policy which is one aspect of national security policy The subject is of interest in at least four ways It problematizes the inescapable question of governance in the African continent It challenges the democratization agenda in Africa how does one democratize not only political governance but also the instruments of violence in the state It also challenges African constitutional lawyers and policy makers to seek a constitutional model that addresses the enduring menace of the power of the gun in African affairs and the changing role of the military in African politics Finally it underscores concerns about sovereignty and national security This book contributes to a fuller understanding of the coup syndrome in African To this end it vigorously interrogates the place of coups in the governance of Africa and explores the relevance of Kelsen s theory of revolutionary legality in the context of coup d tats in Africa It is a major contribution by a leading thinker in the field **A New Constitutional Order?** Fordham Law School,2006 *The National Security Law of Hong Kong* Hualing Fu,Michael Hor,2022-07-12 The Law of the People s Republic of China on Safeguarding National Security in the Hong Kong SAR the NSL promises to be the most important legal development in Hong Kong since the advent of the Basic Law Many wondered in the aftermath of the NSL how the foundations of Hong Kong s system might be changed and in what way the freedoms valued by Hong Kong may be affected Supporters view the law as essential for the preservation of public order and the national security of China and to support the fundamental well being of One Country Two Systems an arrangement that has been in place since the return of Hong Kong to China Critics fear an adverse impact on the spirit of One Country Two Systems From a discussion initiated by the University of Hong Kong s Faculty of Law this collection of essays brings together leading experts on Hong Kong and Chinese law to offer an exploratory study of the NSL and its impact on the legal system and the principle of the rule of law in Hong Kong The book examines the ramifications of the law in relation to constitutional matters protecting national security and sustaining One Country Two Systems policing judicial independence and extraterritoriality as well as its wider implications in areas such as academic freedom and the business environment It explores the interaction between Hong Kong and Chinese law occasioned by the NSL Finally the book offers a comparative perspective of the experience of other jurisdictions that have engaged with similar security legislation This collection addresses an important and timely issue and provides an invaluable resource for all lawyers interested in Hong Kong as they grapple with the momentous changes in its legal landscape The collection will surely serve as a reference point for further discussion and debate Victor V Ramraj University of Victoria Canada This book covers the most important aspects of national security issues including freedom and security that we have always been concerned about This timely publication not only offers the latest research results for the academic community but also provides important reference materials for the Hong Kong society to understand the important topics of national security Zhu Guobin City University of Hong Kong [Hong Kong's New Constitutional Order](#) Yash Ghai,1997-05-01 This is the first systematic analysis of the constitutional legal economic social and political systems of Hong Kong as a special administrative region of
