Meetings With Remarkable Trees:

Meetings With Remarkable Trees Thomas Pakenham, 2019-12-05 Thomas Pakenham's beautifully illustrated bestselling book of tree portraits. With this astonishing collection, Thomas Pakenham produced a new kind of tree book. The arrangement owes little to conventional botany. The sixty trees are grouped according to their own strong personalities: Natives, Travellers, Shrines, Fantasies, and Survivors. From the ancient native trees, many of which are huge and immeasurably old to the exotic newcomers from Europe, the East, and North America, MEETINGS WITH REMARKABLE TREES captures the history and beauty of these entrancing living structures. Common to all these trees is their power to inspire awe and wonder. This is a lovingly researched book, beautifully illustrated with colour photographs, engravings, and maps, a moving testimonial to the Earth's largest and oldest living structures. **Meetings with Remarkable Trees**, 2003 *Meetings with Remarkable Trees*, 2005 **Meetings with Remarkable Trees ; Remarkable Trees of the World** Thomas Pakenham, 2003

This masterful work by internationally known author and speaker Jean Shinoda Bolen provides an insightful look into the fusion of ecological issues and global gender politics. Of trees and women. This book on the importance of trees grew out of Bolen's experience mourning the loss of a Monterey pine that was cut down in her neighborhood. That combined with her practice of walking among tall trees led to her deep connection with trees and an understanding of their many complexities. From their anatomy and physiology to trees as archetypal and sacred symbols, Bolen expertly explores the dynamics of ecological activism, spiritual activism, and sacred feminism. And she invites us to join the movement to save trees. Stories of those making a difference. While there is still much work to be done to address environmental problems, there are many stories of individuals and organizations rising up to make a change and help save our planet. The words and stories that Bolen weaves throughout this book are both inspirational and down to earth, calling us to realize what is happening to not only our trees but our people. By writing about both the work of organizations like Greenpeace and the UN Commission on the Status of Women, Bolen highlights her passions and shares her unique vision for the world. In *Like a Tree*, learn more about the dynamic nature of trees from their anatomy to their role as an archetypal symbol. Pressing social issues such as deforestation, global warming, and overpopulation. What it means to be a tree person.
