Contextualizing Melodrama in the Czech Lands Judith Mabary,2020-10-12 The mention of the term melodrama is likely to evoke a response from laymen and musicians alike that betrays an acquaintance only with the popular form of the genre and its greatly heightened drama exaggerated often to the point of the ridiculous Few are aware that there exists a type of melodrama that contains in its smaller forms the beauty of the sung ballad and in the larger scale works the appeal of the spoken play This category of melodrama is one that surfaced in many cultures but was perhaps never so enthusiastically cultivated as in the Czech lands The melodrama varied greatly at the hands of its Czech advocates While the works of Zden k Fibich and his contemporary Josef Bohuslav Foerster a composer best known for his songs remained closely bound to the text those of conductor composer Otakar Ostr il reveal a stance that privileged the music and given their creator s orchestral experience are more reminiscent of the symphonic poem Fibich in his staged works and Josef Suk composer violinist and Dvo k s son in law in his incidental music reflect variously late nineteenth century Romanticism the influence of Wagner and early manifestations of Impressionism In its more recent guise the principles of the staged melodrama reside quite comfortably in the film score Judith A Mabary s important volume will be of interest not only to musicologists but those working in Central and East European studies voice studies European theatre and those studying music and nationalism **Max Weber and His Contemporaries** Wolfgang J. arena for understanding the limits of acculturation the dangers of ethnic mixing and the implications of shifting gender norms and marriage patterns while simultaneously entertaining their readers In this pioneering study Sonia Gollance examines the specific literary qualities of dance scenes while also paying close attention to the broader social implications of Jewish engagement with dance Combining cultural history with literary analysis and drawing connections to contemporary representations of Jewish social dance Gollance illustrates how mixed sex dancing functions as a flexible metaphor for the concerns of Jewish communities in the face of cultural transitions Writing the New Berlin Katharina Gerstenberger,2008 Newness and its discontents Berlin literature in the 1990s and beyond Erotic sites sexual topographies after the Wall Bodies and borders the monsters of Berlin Multicultural Germans and jews of many cultures imagining Jewish Berlin Goodbye to East Berlin Looking for perspectives the construction at Potsdamer Platz **Book of Wonders!** ,1894 *Performing Operas for Mozart* Ian Woodfield,2012 A study of the Prague Italian opera company and its role in performing Mozart s works in the late eighteenth century Broken Lives Konrad H.
