

A stack of four smooth, rounded stones is centered in the image. The top stone is light brown and has the word "Mind" written on it in a bold, black, sans-serif font. The second stone from the top is dark grey or black and has the word "Body" written on it in a white, cursive font. The third stone is a medium brown color and has the word "Soul" written on it in a black, cursive font. The bottom stone is partially visible and has a greenish-blue pattern. The background is a soft-focus scene of water with green reeds or grasses on the left side. The overall mood is peaceful and contemplative.

suggesting analytical thought as a key to enlightenment ultimately urging unity of our trifold nature for a complete existence

The Embodied Child Roxanne Harde, Lydia Kokkola, 2017-09-11 *The Embodied Child Readings in Children's Literature and Culture* brings together essays that offer compelling analyses of children's bodies as they read and are read as they interact with literature and other cultural artifacts and as they are constructed in literature and popular culture. The chapters examine the ideology behind the cultural constructions of the child's body and the impact they have on society and how the child's body becomes a carrier of cultural ideology within the cultural imagination. They also consider the portrayal of children's bodies in terms of the seeming dichotomies between healthy vs unhealthy bodies as well as able-bodied vs disabled and examines flesh and blood bodies that engage with literary texts and other media. The contributors bring perspectives from anthropology, communication, education, literary criticism, cultural studies, philosophy, physical education, and religious studies. With wide and astute coverage of disparate literary and cultural texts and lively scholarly discussions in the introductions to the collection and to each section, this book makes a long-needed contribution to discussions of the body and the child.

Mind.Body.Soul. Kendra Leonard, 2020-06-29 In her search for peace, Kendra writes about her experiences of being single, putting herself first, stepping into her light and shining as bright as she can through self-discovery and putting in the work to find herself along the journey of this thing called life. She shares what she hopes will be a helpful guide to others as they go through life and all that's unexpected, ultimately a lesson in learning to let go and release what no longer serves you so you can create space for what is to come.

Lifestyles for Learning Susan Crowther, 2015-08-04 College is risky business. Life is hurled into never-before-imagined freedom, independence, and choice. For many students, college brings challenges and changes in nearly every area of life: physical, physiological, emotional, social, residential, financial, spiritual, and sexual. College may well be the most volatile time in a person's life. Attending college is bad for your health. Statistically, young adults face more depression, anxiety, eating disorders, and drug addiction than in any other time in their lives. Schizophrenia emerges most often during this time. Suicide rate is highest between 16-21 years. A college student's lifestyle is a potential threat to their successful academic performance. The good news is that with the right tools, students can create a college experience that is healthy, successful, and fits their own unique selves. *Lifestyles for Learning* explores the direct relationship between academic performance and key lifestyle factors: food, sleep, stress, movement, creativity, connection, addiction, and giving. It further discusses how lifestyle factors are challenged by learning disabilities and other co-occurring diagnoses such as ADHD and behavioral disorders. *Lifestyles for Learning* offers guidance to prepare every college student for success. Peppered with humorous anecdotes and warm-hearted wisdom, this is important reading for students entering college as well as for parents, educators, counselors, doctors, psychologists, and educational consultants. It is also designed for supplemental reading in college and high school courses.
