She is wearing a golden crown with a blue gemstone. Her face is a mix of gold and silver, with a serene expression. She is holding a golden book in front of her chest. Mind The Almighty:

THE MIND CODE SANJEEV SAREEN,2023-08-11 We perceive and interact with the outside world but only in the context of how our minds and intellects interpret it Only through our minds can the outer world reach us and cause us to smile in happiness or cry in sadness Our emotions interpersonal interactions and decision making are all impacted by our mental health which affects how we think feel and act Stress management resilience building and overcoming obstacles in life are all facilitated by good mental health The world is as our mind is Therefore mental development and control are of utmost importance Finding a mind that is unaffected by its interaction with fluctuation is truly unusual like heat which cannot exist without fire But most people let their minds wander and follow their own sweet wills and desires It wanders and is erratic like a poorly trained animal or a spoiled child who receives excessive indulgence from their parents But there is nothing to feel any guilt sort of thing because it is normal It is the very nature of the mind everyone is facing the mind like that only But yes it is not good a thing to be led by it compulsively It unnecessarily creates a lot of mental stress and mental health problems It doesn't necessarily have to be like that only We can make conscious efforts to understand the mind establish some control over it and bring some order into it for a better life And the good thing is it is possible the nature of the mind can be changed It's crucial to understand that mindsets have a crucial role in behavior and health rather than being merely incidental Real happiness is not found in positions of power or material wealth Happiness is the result of a pure peaceful and controlled mind It is the mind which is the source of both our pleasure and misery Although these are common occurrences for us we don't classify them as significant We frequently overlook the reality that our thoughts mindsets and aspirations are influencing our lives Every human action can be explained in terms of the mind that causes it Every action that results from the mind has at least two components the physical and the mental We have to strive to keep a balance between the two to act effectively When the mind and body cooperate without overwhelming one another it becomes spiritual in the process The nature of the human mind is a bit challenging to comprehend because it is hidden and nuanced But if you make an effort to know about the mind and how to manipulate it you can shape it in whatever way you like Even science validates the possibility of rewiring the brain It is plastic and incredibly malleable Understandably every study ought to contain both a theoretical and a practical component The intellect tries to settle for the theory alone but the actual perception of the truth that the theory contains is bigger and more magnificent Success comes from applying the sermons not just hearing them This book covers the psychological philosophical and Spiritual aspects of Mind management This is a guidebook containing techniques and practical exercises Working on these guidelines you will learn how to have mind control for a growth mindset and peace of mind control negative thoughts and master your emotions It is basically all about mental health and improving the state of mind This book contains the Universal Secrets that govern every area of life Remember one who conquers the mind conquers the world So let's make the best use of the opportunity here to understand various aspects of the mind and
