Mines Of Behemoth:

The Mines of Behemoth Michael Shea,1997 Niff the Lean and his companion at arms Barnar Hammer Hand were often lucky Enroute to working Costard s sap mine very dangerous and sometimes nauseating work far below ground they were shipwrecked But this proved fortuitous when they met Bunt who had been seeking just such as they If they would work the sap mine but also bring back twenty gills of fluid he would make them exceedingly wealthy So it was settled They would suck the sap from the servants of the monstrous insectile queen and they would bring back some of the ichor that she alone exuded and they would be rich It seemed relatively easy They wouldn t have to go to hell at all for instance Of course the best laid plans sometimes do go a little astray *The Mines of Behemoth* Michael Shea,2023 *World Mines Register* ,1902

Mines Register Horace Jared Stevens,Walter Harvey Weed,Walter Garfield Neale,Lenox Hawes Rand,Edward Barney Sturgis,Joseph Zimmerman,1902 **Forged in Genocide** William Blakemore Lyon,2024-07-22 Forged in Genocide traces the early history of colonial capitalism in Namibia with a central focus on migrants who came to be key to the economy during and as a result of the German genocide of the Herero and Nama 1904 1908 It posits that Namibia far from being a colonial backwater of the early 20th century became highly integrated into the labor flows and economies of West and Southern Africa and even for a time was one of the most sought after regions for African migrants because of relatively high wages and numerous opportunities resulting from the war s demographic devastation paired with an economic frenzy following the discovery of diamonds In highlighting the life stories of migrants in Namibia from regions as diverse as the Kru coast of Liberia the Eastern Cape of South Africa and the Ovambo polities of Northern Namibia this work integrates micro history into larger African continental trends Building off of written sources from migrants themselves and utilising the Namibian Worker Database constructed for this project this book explores the lives of workers in early colonial Namibia in a way that has hereto not been attempted *Mines Register* ,1902 *The Privilege of Servitude* Ricardo Antunes,2025-09-25 The Privilege of Servitude presents a detailed and up to date portrait of today s working class Antunes examines the main trends in new labour relations where precariousness outsourcing and deregulation have become the rule rather than the exception He offers an in depth analysis of the rise of the new service proletariat and contemporary forms of digital labour while also exploring changes in labour relations globally with a particular focus on Brazil s recent history from the period of redemocratisation to the Bolsonaro years *Mines and Mineral Statistics* Michigan. Department of Mineral Statistics,1901

Warlords of Oman P. S. Allfree,1968 The publication of Warlords of Oman in 1967 coincided with the first export of oil from Oman and the beginning of momentous change in a country that had been virtually closed to the outside world Since then under the leadership of His Majesty Sultan Qaboos the development of the country and its people has been recognized as an international success story The events recorded in this book describe a very different state of affairs in a part of the world about which little was known at the time Very few books had been published when this book first appeared in print and although much has been written since about Oman and the events set down in this book it remains a classic of Arabian travel and experience Full of lively descriptions of people and places its pages abound with delightful scenes of local color lively encounters fascinating characters and enthralling incidents

The Cinema of Wang Bing Bruno Lessard,2023-11-02 Having made documentary films screened at the most prestigious film festivals in the West Chinese documentary filmmaker Wang Bing presents a unique case of independent filmmaking In The Cinema of Wang Bing Bruno Lessard examines the documentarian s most important films focusing on the two obsessions at the heart of his oeuvre the legacy of Maoist China in the present and the transformation of labor since China s entry into the market economy and how the crucial figures of survivor and worker are represented on screen Bruno Lessard argues that Wang Bing is a minjian grassroots intellectual whose films document the impact of Mao s Great Leap Forward on Chinese collective memory and register the repercussions of China s turn to neoliberalism on workers in the post Reform era Bringing together Chinese documentary studies and China studies the author shows how Wang Bing s practice reflects the minjian ethos when documenting the survivors of the Great Famine and those who have not benefitted from China s neoliberal policies from laid off workers to migrant workers The films discussed include some of Wang Bing s most celebrated works such as West of the Tracks and Dead Souls as well as neglected documentaries such as Coal Money and Bitter Money Bruno Lessard analyzes Wang Bing s documentary masterpieces through the twin lens of history and labor Incisively framing them as a sustained critical intervention in how China understands itself through the legacy of Maoism and Deng Xiaoping s neoliberal reform

project The Cinema of Wang Bing makes me want to watch the films again Chris Berry King s College London Professor Lessard offers an original and comprehensive study of Wang Bing s contribution to Chinese documentary as a mode of observation and reflection on some of the most crucial periods of China s recent and present history I certainly felt that reading the films through a sociohistorical approach produced a more vibrant understanding of Wang Bing s oeuvre Cecilia Mello University of S o Paulo
