Antiziganism Markus End, Hristo Kyuchukov, Pia Laskar, 2015-06-18 In October 2013 more than 100 scholars gathered at an international conference in Uppsala to discuss ways to identify and analyse a theme which in recent years has attracted growing attention the discrimination marginalisation and persecution of Romanies The approaches adopted in this volume range from critical theory semiotics discourse and cultural analysis to intersectional perspectives Many contributors here argue for a conceptual understanding of this phenomenon that goes beyond the notions of anti Romani racism or Romaphobia suggesting a shift in focus towards the prevailing prejudice in majority societies The controversial core theme discussed in this book is the appropriateness and the theoretical understanding of the term antiziganism and its analogue antigypsyism The essays explore empirical findings from the news media film literature and theatre as well as contemporary and historical realities in Germany Kosovo Norway the former Ottoman Empire the Soviet Union Romania Sweden and the US The striking historical and geographic continuity of stereotypes and the different modes of antiziganist practice comprise a central theme here along with a focus on the counter discourse of Romanies Since comprehensive literature on this topic in Romani studies has to date been rare this volume provides necessary readings for the debate among scholars policy makers and activists
