Slate, 2010 Guides readers through effective self empowerment techniques involving dream work creative visualization nature positive inner dialogue and other ways of exploring the subconscious with the aim of resolving conflicts enhancing creativity developing psychic skills and mapping out a happier and healthier life Original By the authors of *Self Empowerment Through Self Hypnosis*

*Non-Epileptic Seizures in Our Experience* Steven C. Schachter, 2020 To an Outside Observer Psychogenic Non Epileptic Seizures PNES can look like epileptic seizures However unlike epileptic seizures they are not caused by abnormal electrical discharges in the brain Instead most PNES are an automatic psychological and physiological response to an internal or external trigger perceived as threatening by the individual whether consciously or not Not least because the changes in the brain that underpin PNES cannot be visualized easily with clinical tests there are many uncertainties and controversies surrounding the condition and patients often provoke a mixture of emotions in healthcare professionals While some patients have positive care experiences many are left feeling confused angry and abandoned by the clinicians they have encountered *Non Epileptic Seizures in Our Experience* presents the perspectives of over 90 members of different healthcare professions from around the world By allowing readers to gain fascinating insights into a broad range of their thoughts and feelings about PNES this book challenges negative attitudes surrounding the condition and helps to improve understanding between members of different professional groups as well as between professionals and patients In doing so it should ultimately advance the quality of care provided for those with PNES Book jacket *Your Success Mind* Angelique Dawson, Many people have tried and failed with the Law of Attraction What went wrong The theory is missing a vital ingredient the Second Mind Each of us has a paranormal mind our unconscious to accompany our normal mind our consciousness You have to activate and harness this second mind before the universe will bend to your will and make your dreams come true Your paranormal mind is the key to the Success Formula You cannot succeed if you are not aligned with it Come inside and learn how to enter a prosperous partnership with your second mind the mind that in truth is your own soul **Ecological Politics** John Rensenbrink, 2016-11-21 Rejection of politics is deep and widespread Even sincere and responsible individuals who practice it hold their nose while doing so Yet politics must be practiced and well if the planet and the people are to survive A clue for our future success as a species lies in the fact that ecology has never really been tried in politics Yet ecology holds the secret of success for planet and people precisely in politics Deep in ecology is the astounding fact scientifically examined and attested to that we are already related Though taught by elite after elite that we are separate from nature and thus from everyone and everything this can now be seen as the great mistake and a perpetuated lie from generation to generation A new ontology of being related is the gateway of consciousness to a new and exciting politics for survival and democracy Waves of transformation lap at barriers in the political sphere But they are repulsed by an entrenched politics rooted not only

in the greed and power hunger of a dominant few or in outmoded structures of economic and political power but in the old millennial ontology of being separate Our extraordinary times call for a new political party animated by the ecology of being related It is a party of a different kind one that frees itself from giant worldwide corporations is fully and overtly dedicated to non violence and rooted in the awareness that the people come first This party knows that elections must be fair and equal and must enable undistorted dialogue and that people in government must not only proclaim but practice the principle of being of for and by the people This book challenges The Green Party now on a footing in over 100 countries to be this party of a different kind **Unraveling and Reweaving Sacred Canon in Africana Womanhood** Rose Mary

Amenga-Etego, Rosetta E. Ross, 2015-12-15 In this collection continental and diasporan African women interrogate the concept sacred text and analyze ways oral and written religious texts intersect with violence against African descended women and girls While the sanctioned idea of a sacred text is written literature this project interrupts that conception by drawing attention to speech and other embodied practices that have sacral authority within the social imaginary As a volume focused on religion and violence essays in this collection analyze religions authorization of violence against women and girls contest the legitimacy of some religious texts and affirm other writing especially memoir as redemptive Unraveling and Reweaving Sacred Canon in Africana Womanhood arises from three years of conversation of continental and diasporan women most recently continued in the July 6 10 2014 Consultation of African and African Diasporan Women in Religion and Theology and privileges experiences and contexts of continental and diasporan African women and girls Interlocutors include African traditionalists Christian Protestants and Catholics Muslims and women embodying hybrid practices of these and other traditions The Early Solov'ev and His Quest for Metaphysics Thomas Nemeth, 2013-10-18 This volume offers a critical examination of the early works of Vladimir Solov'ev Russia's most famous and systematic philosopher It presents a philosophical critique of his early writings up to 1881 from an immanent viewpoint and examines Solov'ev's intended contributions to philosophy against the background of German Idealism including Schopenhauer and the positivism of his day Examining contemporary reactions to his writings by leading figures of his day such as Chicherin and Kavelin The Early Solov'ev and His Quest for Metaphysics reveals the small but vibrant philosophical community in Russia during the immediate decades before the Bolshevik Revolution It provides a detailed discussion of Solov'ev's confrontation with his philosophical opponents and shows how his emphasis on developing a metaphysical ontology rather than epistemology exerted a virtual paradigmatic influence on Russian philosophy for years to come This volume also sets Solov'ev's writings against a detailed intellectual biography of these early years drawing on letters to friends and relatives including reminiscences and challenges many of the received claims concerning his actions and positions particularly his alleged youthful mystical visions In addition the book features two appendices one that sketches the early Russian reception of French positivism against which Solov'ev reacted in the name of metaphysics and another that presents a fascinating look at the Solov'ev family background which

produced at once intellectual as well as dysfunctional members Presenting a rare picture of the non Marxist intellectual scene in 19th century Russia The Early Solov v and His Quest for Metaphysics will be of interest to graduate students and researchers looking for a philosophically informed approach to this unique thinker and era **Transactions** ,1909 **The Mechanism of Man** Edward William Cox,1879 The Month ,1922 **Educational Times and Journal of the College of Preceptors** ,1912 *Principles of Mental Physiology* William Benjamin Carpenter,1883 **Unity** ,1918 *The Healing Touch* Edith F.
