Gregory Caramencio, 2024-05-31 How should we speak of bodies and souls In *Coming to Mind* Lenn E Goodman and D Gregory Caramenico pick their way through the minefields of materialist reductionism to present the soul not as the brain's rival but as its partner What acts they argue is what is real The soul is not an ethereal wisp but a lively subject emergent from the body but inadequately described in its terms Rooted in some of the richest philosophical and intellectual traditions of Western and Eastern philosophy psychology literature and the arts and the latest findings of cognitive psychology and brain science *Coming to Mind* is a subtle manifesto of a new humanism and an outstanding contribution to our understanding of the human person Drawing on new and classical understandings of perception consciousness memory agency and creativity Goodman and Caramenico frame a convincing argument for a dynamic and integrated self capable of language thought discovery caring and love

Minding Creation Joanna Leidenhag,2020-12-10 Are humans the only creatures that can appreciate God s creation What if consciousness is spread more widely across all things This volume examines panpsychism through the lens of Christian doctrine Minding Creation is the first substantial examination of what a panpsychist theory of consciousness implies for key theological debates concerning God s presence and action evolution and the origin of the soul human uniqueness and the environmental crisis Joanna Leidenhag develops a theological panpsychism that is based on an exceptionally wide range of scholarship Minding Creation draws on the theologies of historical figures such as Augustine of Hippo Gottfried von Leibniz and others in order to create a critical and constructive conversation with contemporary analytic philosophers of mind such as Thomas Nagel Galen Strawson and David J Chalmers Leidenhag also discusses key concepts and issues such as emergence theory divine action and ecology She concludes that God created a universe from nothing which is filled with indwelling powers sacramental value and intrinsic experience This is a creation in which the Holy Spirit is internally present at every point a creation that worships God and a creation that human beings must protect and lead in praise , **Notes, explanatory and practical, on the Epistle to the Romans. The Third Mind Theory Non Self and Trans Egoism New Philosophical School By Philosopher Abeer Almadawy A Scientific and Philosophical research of third mind and Introduction to establish the New School of philosophy Non Self and Trans Egoism Academic Description The Third Mind Theory and the Philosophy of Non Self and Trans Egoism by philosopher and researcher Dr Abeer Almadawy presents an original philosophical and cognitive study that introduces a new framework for understanding human consciousness identity and ethical awareness The book proposes the Third Mind Theory as a comprehensive model of human cognition that expands beyond traditional dual theories of the conscious and subconscious mind In this model the Third Mind functions as a central integrative cognitive system responsible for collecting organizing and transforming information generated by both conscious reasoning and subconscious processes throughout the human lifespan Rather than approaching consciousness through metaphysical or theological assumptions the theory is developed within a philosophical epistemological framework examining how meaning awareness memory and ethical orientation are

formed and preserved in human experience The Architecture of the Mind The book examines earlier theories of the mind clarifying the functional limits of the conscious mind associated with perception reasoning and decision making and the subconscious mind associated with memory emotional patterns and conditioned responses It then introduces the Third Mind as a mediating and unifying cognitive level that enables coherent self awareness continuity of identity and reflective understanding beyond reactive thought Within this structure the Third Mind operates as a human record of experience transforming lived events into structured meaning rather than merely storing fragmented memories Non Self and Trans Egoism The second core contribution of the book is the philosophy of Non Self and Trans Egoism a school of thought founded by Dr Abeer Almadawy through her philosophical and literary works Non Self is presented as a critical philosophical process aimed at dismantling false ego based identification without negating individuality responsibility or rational agency It challenges the dominance of the ego as the center of consciousness and exposes its role in conflict fragmentation and ethical distortion Trans Egoism represents the reconstructed stage of awareness in which the ego no longer governs perception and decision making but functions as a regulated cognitive tool In this state the individual achieves ethical clarity without dogmatism awareness without detachment autonomy without narcissism *Cosmocellular-Hypothesis-Unique Philosophy book: A Journey From Meditation To Modern-Medicine (Volume - 1 - A)* Dr. Kamlesh N Patel, Welcome to still unwritten phenomena showing Nonmolecularly Molecular Cosmocellular World Read a special similarly a banyan tree from banyan tree only mango tree from mango tree only etc etc In short a babool or banyan tree never never gives mango fruit

Psychomanagement Robert Spillane, 2017-04-28 The ultimate test of management is performance the achievement of actual results Why then do Australian managers concern themselves with their colleagues personalities and motives Why have they become infatuated with emotional intelligence and in bizarre cases with spiritual intelligence Traditionally managers who performed earned the right to argue with their colleagues Nowadays individuals who argue are said to lack soft skills while a sad few are thought to be suffering from a personality disorder The popularity of soft skill management has created psychomanagers managers who have entered into a Faustian bargain with psychologists Some managers work with psychologists to master themselves others work with psychologists to master other people As psychomanagement requires specialised knowledge many Australian managers have yielded their authority to counsellors coaches and consultants many of whom believe that human behaviour is determined by internal and external forces over which individuals have little or no control Accordingly psychologists have laboured to absorb the idea of the free and responsible individual into a pseudo scientific framework that denies moral agency The result is that ideas of right and wrong have been replaced with healthy and sick In their pursuit of a therapeutic state psychologists have medicalised morality and managers have embraced powerful myths about minds motive forces personality traits social conditioning leadership occupational stress and mental illness Consequently the twin ideas of personal freedom and responsibility have been sabotaged Freud Maslow Eysenck

Skinner and other influential psychologists have denied or minimised the importance of personal responsibility And insofar as managers have entered into an unholy alliance with them they too have minimised personal responsibility at the workplace This book is about Australian managers and their long standing love affair with psychologists For fifty years the author has studied taught and consulted with managers and waltzed with several famous psychologists and an infamous psychiatrist Fortunately they represented both sides of the debate about personal responsibility and human freedom This book is therefore a personal and selective account of a professional life spent studying the problematic relationship between managers and psychologists
