Mathematics Into Type Ellen Swanson, 1979 Mathematics Into Type Ellen Swanson, Arlene Ann O'Sean, Antoinette Tingley Schleyer, 1999-01-01 This edition updated by Arlene O Sean and Antoinette Schleyer of the American Mathematical Society brings Ms Swanson's work up to date reflecting the more technical reality of publishing today While it includes information for copy editors proofreaders and production staff to do a thorough traditional copyediting and proofreading of a manuscript and proof copy it is increasingly more useful to authors who have become intricately involved with the typesetting of their manuscripts Math into LaTeX George Grätzer, 2013-12-01 AMS packages that replaced AMS Ib TEX version 1.1 but the book still had an AMS Ib TEX centric view This third edition is about Ib TEX Where necessary I recommend that you use packages to extend Ib TEX's capabilities For typesetting mathematics I strongly recommend that you use the AMS packages AMS packages version 2.0 The American Mathematical Society released version 2.0 of the AMS packages in 1999 This third edition covers the changes made in this release Books The first and second editions of this book dealt primarily with the tasks involved in writing articles In Part V the third edition addresses the issues that arise when creating longer documents In addition to chapters on BIBTEX and MakeIndex I have added a new chapter on writing books Appendix F illustrates the importance of choosing a well designed book document class Other changes B1EX Ib TEX2 has been remarkably stable since its release in 1996 becoming the standard Ib TEX see Section C.1.2 Changes have been minor except for advances in using Ib TEX with non English languages see the new Appendix E and the widespread use of the PostScript CM and AMS fonts see the new Section D.1 Reorganization and additions Due to the new emphasis on writing books a number of sections and subsections have moved from Chapter 2 and Chapters 6-8 to the new Chapter 12
