Matriliny in Meghalaya Pariyaram Mathew Chacko,1998 Papers presented at a one day seminar Matriliny in Meghalaya Pariyaram M Chacko,2022 **Matriliny in Meghalaya** Pariyaram Mathew Chacko,2021 Papers presented at a one day seminar Gender, Matriliny, and Entrepreneurship Tiplut Nongbri,2008-07-10 This book focuses on the economic activities of Khasi women a matrilineal tribe in North East India As an informal group of the market economy Khasi women are engaged in diverse forms of income generating activities ranging from agriculture and commerce to contractual services in the tertiary sector However women s contribution to the economy remains a largely neglected area both in research as well as in policy not only in North East India but also nationally and internationally What accounts for this general indifference to the economic role of women is one of the issues addressed in this book The central issue however revolves around the question of why despite the substantial time and energy Khasi women invest in their business many continue to stagnate and why some after acquiring some measure of success slide into oblivion The author adopts an integrated approach and through her analysis reveals that women s entrepreneurial growth is not only severely constrained by a biased gender ideology but also by the general apathy and inefficiency of the state machinery An important point that emerged from the data is the close interplay between women s work gender ideology and the system of kinship and marriage matriliney with the state reinforcing the relationships between the three *Life and Culture of Matrilineal Tribe of Meghalaya* Pranab Kumar Das Gupta,1984 **Communities, Institutions and Histories of India's Northeast** Charisma K. Lepcha,Uttam Lal,2021-11-09 People from India s Northeast have crafted distinct as well as diverse cultural cryptograms discernments and personality which is frequently at loggerheads with the power politics from outside the region Thus attention is often on the societies of the Northeast India as they putter with transforming institutions and more intensive resource consumption in the wake of modernization and development activities This volume is an examination into questions of who exercises control who constructs knowledge ideas about the region and how far such discourses are people centric It inspects how India s Northeast have been understood in colonial and post colonial contexts through the contributions from research scholars and faculties from different academic spaces These contributions are both from within the region as well as from neighbourhood Thus presenting a cross dimensional gaze on social political economic as well as issues related to space relation Please note Taylor Francis does not sell or distribute the Hardback in India Pakistan Nepal Bhutan Bangladesh and Sri Lanka *Mining, Displacement, and Matriliny in Meghalaya* Bitopi Dutta,2022-03-03 This book studies how Development Induced Displacement DID radically restructures gender relations in indigenous tribal societies Through an indepth case study of the Indian state of Meghalaya one of the few matrilineal societies of the world it analyses how people cope with conflicts in their perception of self family and society brought on by the transition from traditional modes of living to increased urbanisation and how these experiences are different for men and women It looks at the ways in which this gendered change is

experienced inter generationally in different contexts of people s lives including work and leisure activities The book also investigates people s attitudes towards matrilineal structures and their perception of change on matrilineality where mining has played a role in building their view of their matrilineal tradition Drawing on extensive interviews with individuals directly affected by this phenomenon the book part of the Transition in Northeastern India series makes a significant contribution to the study of DID It will be useful for scholars and researchers of urbanisation gender studies Northeast India studies development studies minority studies public policy political studies and sociology [The Patriarchs](#) Angela Saini,2023-02-28

For fans of Sapiens and The Dawn of Everything a groundbreaking exploration of gendered oppression its origins its histories our attempts to understand it and our efforts to combat it For centuries societies have treated male domination as natural to the human species But how would our understanding of gender inequality our imagined past and contested present look if we didn t assume that men have always ruled over women If we saw inequality as something more fragile that has had to be constantly remade and reasserted In this bold and radical book award winning science journalist Angela Saini explores the roots of what we call patriarchy uncovering a complex history of how it first became embedded in societies and spread across the globe from prehistory into the present She travels to the world s earliest known human settlements analyzes the latest research findings in science and archaeology and traces cultural and political histories from the Americas to Asia finding that From around 7 000 years ago there are signs that a small number of powerful men were having more children than other men From 5 000 years ago as the earliest states began to expand gendered codes appeared in parts of Europe Asia and the Middle East to serve the interests of powerful elites but in slow piecemeal ways and always resisted In societies where women left their own families to live with their husbands marriage customs came to be informed by the widespread practice of captive taking and slavery eventually shaping laws that alienated women from systems of support and denied them equal rights There was enormous variation in gender and power in many societies for thousands of years but colonialism and empire dramatically changed ways of life across Asia Africa and the Americas spreading rigidly patriarchal customs and undermining how people organized their families and work In the 19th century and 20th centuries philosophers historians anthropologists and feminists began to actively question what patriarchy meant as part of the attempt to understand the origins of inequality In our own time despite the pushback against sexism abuse and discrimination even revolutionary efforts to bring about equality have often ended in failure and backlash But [The Patriarchs](#) is a profoundly hopeful book one that reveals a multiplicity to human arrangements that undercuts the old grand narratives and exposes male supremacy as no more and no less than an ever shifting element in systems of control [Revisiting Traditional Institutions in the Khasi-Jaintia Hills](#) Charles Reuben Lyngdoh,2016-12-14 Traditional institutions in the Khasi Jaintia society are living organisms which have existed for centuries and internally evolved from one phase to another Despite having come into contact with newer and more modern forms of administration they continue to exist backed by local public opinion that has

called for their continuity amidst diminishing responsibility and utility This collection of papers explores the landscapes of traditional institutions that exist in the present Khasi and Jaintia Hills in Meghalaya India The chapters blend oral tradition with historical records and available sources from secondary literature They examine the interplay of power and functions between the constitutional authorities such as the state government and the Autonomous District Councils and traditional authorities represented by the traditional institutions
