**A Productivity Systems Guide for Occupational Therapy** Jeanette Bair, Carol H. Gwin, 1985      **The Occupational Therapy Managers' Survival Handbook** Florence S Cromwell, Chestina Broilier, 2013-04-15 This practical volume in a casebook approach was developed in response to the complex issues that today's manager faces. As therapists assume managerial responsibilities, there is a need to share experiences and lessons learned. In this volume, a common format is used to present each case, including chronology of events, alternatives considered, risks involved, and outcomes. Several chapters include valuable resource materials as well. Key concerns are addressed, such as justifying more therapist staff, evaluating staff performance, collecting and analyzing cost data to establish fees, weighing ethical and liability concerns, and teaching students about their future responsibilities. **The Occupational Therapy Manager's Survival Handbook** provides useful material for any therapist who wishes to examine and strengthen his or her role as a manager.      **Effective Documentation for**

**Occupational Therapy** Jane D. Acquaviva, 1998      **Developmental Disabilities** David A. Ethridge, Jerry A. Johnson, 2013-01-11 This significant volume provides broad coverage of the spectrum of problems confronted by patients with developmental disabilities and the many kinds of occupational therapy services these individuals need. Experts identify exemplary institutional and community service programs for treating patients with autism, cerebral palsy, epilepsy, and mental retardation. A welcome contribution to the meager professional literature on the subject, **Developmental Disabilities: A Handbook for Occupational Therapists** will be an enormously helpful resource for therapists who work with both children and adults ranging from mild to severe levels of impairment. You will learn how to establish a therapeutic environment for children with autism, develop a pre-vocational program in a pediatric skilled care facility, use qualitative research to obtain insight into the world of adults with significantly limiting cerebral palsy, and provide early intervention for your developmentally disabled patients.      [The Occupational Therapy Manager](#) Jeanette Bair, Madelaine Gray, 1992
