Play and Learning in Early Childhood Settings Ingrid Pramling Samuelsson, Marilyn Fleer, 2008-11-14 This book represents the outcome of the joint activities of a group of scholars who were concerned about the lack of international research in play for children from birth to 3 years. The authors are members of the Organisation Mondiale pour l'Éducation Prescolaire OMEP. For further information see <http://www.omong.net>. The idea of carrying out a research project internationally was born at the OMEP's World Congress in Melbourne, Australia, 2004. All member countries were invited and 10 countries decided to participate, of which three have withdrawn during the process. The reason for this might be that in these countries only one person was working with the project while in other seven countries there have been teams of two or more persons. The countries that have carried out research and contributed to this book with a chapter each are Australia, Chile, China, Japan, New Zealand, Sweden, and USA, Wisconsin. For more information about the participating countries and their corresponding addresses see Appendix I. This book project started in Melbourne with a discussion about what is general in early childhood education globally and what is culturally specific. The discussion was inspired by one of the keynote speakers, Nazhat Shameem, 2004 judge in the Supreme Court in Fiji, when she said, "If we all think we are so different and specific in each culture, the role of human rights has no value anymore." We formulated three questions:
