

A Classroom Example of Mathematical Discourse

Teacher

In a fraction, what does the denominator—the bottom number—tell us?

The total number of parts or sections.

Julie

Teacher

[to the class] Using thumbs up or thumbs down, show us if you agree with Julie.

[after observing the responses] Some of you disagree. Would someone explain why? Okay, James, please explain.

She said the denominator tells the total number of parts, but all the parts have to be the same size.

James

Teacher

Thank you, James. Can someone else say that differently?

They have to be the same.

Nicole

Teacher

Can you say that again using some of the math words we've been learning?

The bottom number, I mean, the denominator tells us the total number of equal-sized parts.

Nicole

Teacher

Thank you, Nicole.

Mathematical Discourse

Arturo Cuomo

Mathematical Discourse:

Immerse yourself in heartwarming tales of love and emotion with Explore Love with its touching creation, Experience Love's Journey in **Mathematical Discourse**. This emotionally charged ebook, available for download in a PDF format (*), is a celebration of love in all its forms. Download now and let the warmth of these stories envelop your heart.
