Real World Diaries:

Voyeur Nation Clay Calvert, 2009-04-21 From 24 hour a day girl cam sites on the World Wide Web to trash talk television shows like Jerry Springer and reality television programs like Cops we've become a world of voyeurs. We like to watch others as their intimate moments, private facts, secrets, and dirty laundry are revealed. Voyeur Nation traces the evolution and forces driving what the author calls the voyeurism value. Calvert argues that although spectatorship and sensationalism are far from new phenomena today, a confluence of factors—legal, social, political, and technological—pushes voyeurism to the forefront of our image-based world. The First Amendment increasingly is called on to safeguard our right via new technologies and recording devices to peer into the innermost details of others' lives without fear of legal repercussion. But Calvert argues that the voyeurism value contradicts the value of discourse in democracy and First Amendment theory since voyeurism by its very nature involves merely watching without interacting or participating. It privileges watching and viewing media images over participating and interacting in democracy.

Docufictions Gary D. Rhodes, John Parris Springer, 2014-10-01 Through most of the 20th century the distinction between the fictional narrative film and the documentary was vigorously maintained. The documentary tradition developed side by side with but in the shadow of the more commercially successful feature film. In the latter part of the century, however, the two forms merged on occasion, and mockumentaries, fictional works in a documentary format, and docudramas, reality-based works in a fictional format, became part of the film and television landscape. The 18 essays here examine the relationships between narrative fiction films and documentary filmmaking, focusing on how each influenced the other and how the two were merged in such diverse films and shows as *Citizen Kane*, *M A S H*, *This Is Spinal Tap*, and *Destination Moon*. Topics include the docudrama in early cinema, the industrial film as faux documentary, the fear evoked in 1950s science fiction films, the selling of reality in mockumentaries and reality television, and documentary forms. The essays provide a foundation for significant rethinking of film history and criticism, offering the first significant discussion of two emerging and increasingly important genres. The Triumph of Reality TV Leigh H. Edwards, 2013-01-09 This book provides an up-to-date account of how reality TV has developed, why it has become the most popular genre on television today, and how the explosion in reality TV signals new developments in American media culture. The reasons behind reality TV's continued popularity go beyond the sensationalism and low production cost of these programs; there is much more to the genre's continued success than just escapism or guilty pleasure TV. *The Triumph of Reality TV: The Revolution in American Television* identifies and explores five key media trends reality TV has used to continually draw in viewers and ensure success. These media trends include innovations in storytelling, making emotional appeals to viewers, and applying content from television to other media such as films, music albums, webisodes, online games, and smart phone apps. Author Leigh H. Edwards also analyzes how reality TV shows target themes of social conflict such as changing ideas of the American family and address common anxieties and

tensions in American society such as gender race class and economic struggle A wide variety of reality shows including American Idol Celebrity Rehab Jackass Run s House Survivor and The Hills are profiled An appealing read for students scholars and general readers alike this book provides fascinating insights into the complexities of a seemingly simplistic form of mass entertainment

The Art of Confession Christopher Grobe,2017-11-07 The Art of Confession tells the history of this cultural shift and of the movement it created in American art confessionalism Like realism or romanticism confessionalism began in one art form but soon pervaded them all poetry and comedy in the 1950s and 60s performance art in the 70s theater in the 80s television in the 90s and online video and social media in the 2000s Everywhere confessionalism went it stood against autobiography the art of the closed book Instead of just publishing these artists performed with around and against the text of their lives
