

Characteristics of Effective Foreign Language Instruction

The National Association of District Supervisors of Foreign Languages has identified the following characteristics of effective foreign language instruction. These guidelines provide a basis for common understanding and communication among evaluators, observers, and practitioners in classrooms where foreign/second languages are taught. The Characteristics focus on the students who are the recipients of effective foreign language instruction.

The Characteristics reflect the National Standards for Foreign Language Learning (1996) and focus on the five goal areas of Communication, Connections, Comparisons, Cultures, and Communities. The Characteristics reflect also the importance of language learning strategies, diverse learning styles, the use of authentic cultural documents, and the use of technology as an instructional tool. The Characteristics are a companion resource to the National Standards for Foreign Language Learning, state frameworks, and local curriculum guides.

1. The teacher sets high expectations for all students, designs assessment, and organizes instruction to engage and motivate all learners.
2. The teacher and students communicate purposefully in the target language as listeners, speakers, readers, writers, and viewers.
3. There is more student activity than teacher activity in most lessons. Student activity includes student to student interactions as well as teacher to student interactions. Students work independently, in pairs, and in groups. Students ask and answer questions and they create with language.
4. Students take risks as language learners because the learning environment is positive and supportive.
5. When error correction is appropriate, students are given opportunities, including wait-time, to self-correct. Teacher correction of student errors is often done through follow-up review and re-teaching strategies.
6. Assessments are ongoing. Students are assessed formally and informally on how well they are able to meet the objectives of the lesson. Continuous self-assessments for students and teachers are encouraged.
7. Students use language specific learning strategies and are encouraged to assess their own progress.
8. Culture is a natural component of language use in all activities.

International Summit on the Teaching Profession Reimagining Education, Realising Potential OECD, 2024-04-26 Students face a future filled with uncertainty and change For education systems to continue to remain relevant they must empower students to navigate these changes and succeed in the future by equipping them with the requisite knowledge skills attitudes and values Teachers are key enablers of this endeavour and it is imperative that governments and teacher organisations collaborate to support teachers in exploring and enacting pedagogies and designing learning environments that support student attainment of future ready competencies through policies processes and teacher professional development

Bridging the Gap between the Abundance of American Higher Education Talent and the Immense Foreign Demand for It Richard J. Joseph, 2022-11-03 The gap between the abundance of American higher education talent and the immense foreign demand for it is the great chasm in global education It is a gulf of lost opportunities It is also a space of great economic potential This book describes the great chasm examines factors underlying it and suggests ways to bridge the gap to realize this potential The abundance of talent stems from the slackening growth of the U S higher education sector in the New Millennium Contributing to the slowdown are flat enrollments adverse demographic trends U S visa restrictions and intensifying competition The immense foreign demand has been fueled by the secular expansion of the global economy It has been shaped by the pressing need in emerging markets to develop an educated workforce The great chasm creates an opportunity for American academic institutions to extend their global reach Bridging the gap however is not an easy feat for most U S colleges and universities It is complicated by an institutional culture that is averse to commercialization an organizational structure that is operationally slow and a governance system that often leads to indecision conflict and paralysis Bridging the gap requires fundamental changes in the culture organization and governance of traditional U S academic institutions These changes will pave the way for international expansion which could enhance the financial well being of these institutions the social well being of less developed nations and the critical role that America plays globally in knowledge creation the dissemination of ideas and the pursuit of the truth **The Art of Foreign Language Teaching**

Peter Lutzker, 2022-01-31 The first edition of this work became a standard reference work in the general context of humanistic approaches to foreign language teaching and learning This new edition gives a brief overview of further developments in relevant fields and discusses the importance of the concept of teaching as an art in light of the increasing standardization and digitalization of education Reviews of the 1st edition I believe that the book will become a standard reference point for all those who against the current tide of scientific objectives based test oriented control obsessed sterile approaches to language teaching continue to believe that language teaching is indeed an art and a joyful art at that Prof Dr Alan Maley in English Language Teaching Journal Peter Lutzker is a major educational thinker and has spent half an earthly

Phillips, 1980 **Mentoring Languages Teachers in the Secondary School** Laura Molway, Anna Lise Gordon, 2025-05-21 *Mentoring Languages Teachers in the Secondary School* helps mentors of beginning languages teachers in both developing their own mentoring skills and providing the essential guidance beginning teachers need as they navigate the roller coaster of the first years of teaching. Offering tried and tested strategies based on the best research and evidence it covers the knowledge, skills and understanding every mentor needs and offers practical tools such as lesson plans, feedback guides, observation sheets and examples of dialogue with beginning languages teachers. Research suggests that the role of the mentor is highly influential to the beginning teacher and this book considers language specific aspects as well as a focus on the holistic well being of the beginning teacher. Together with analytical tools for self evaluation this book is a vital source of support and inspiration for all those involved in developing the next generation of outstanding languages teachers. Key topics explained include the following: Roles and responsibilities of mentors; The subject knowledge and understanding required by beginning languages teachers; The lesson planning process; Guidance on teaching core skills of reading, writing, speaking and listening; Development opportunities for languages teachers; Observations and pre and post lesson discussions. Filled with the key tools needed for the mentor's individual development this new text offers an accessible guide to mentoring languages teachers with ready to use strategies that support, inspire and elevate both mentors and beginning teachers alike. Eddy, 2014-03-25 Most research on learning tends to occur in silos based on stakeholder perspective. This volume seeks to break down these silos and draw together scholars who research learning from different perspectives to highlight commonalities in learning for students, faculty and institutions. When we understand how learning is experienced across the institution we can develop strategies that help support, enhance and reinforce learning for all. Exploring what it means to bridge learning across the institution this volume provides a roadmap to improve learning for all. Both scholarly and practical it advances the knowledge about the ways we investigate and study learning across and for various groups of learners. It also collects thinking about learning in its various formats in one location. Provides a platform for synthesis. Outlines key questions for thinking more deeply about learning on campus. Instead of thinking of learning as discrete depending on the stakeholder group this volume highlights the commonalities across all types of learners. **The Teaching of Modern Foreign Languages in the United States**
