**The Big Time** Michael MacCambridge,2023-10-10 Indispensable history Sally Jenkins bestselling author of The Right Call A captivating chronicle of the pivotal decade in American sports when the games invaded prime time and sports moved from the margins to the mainstream of American culture Every decade brings change but as Michael MacCambridge chronicles in THE BIG TIME no decade in American sports history featured such convulsive cultural shifts as the 1970s So

many things happened during the decade the move of sports into prime time television the beginning of athletes gaining a sense of autonomy for their own careers integration becoming at least within sports more of the rule than the exception and the social revolution that brought females more decisively into sports as athletes coaches executives and spectators More than politicians musicians or actors the decade in America was defined by its most exemplary athletes The sweeping changes in the decade could be seen in the collective experience of Billie Jean King and Muhammad Ali Henry Aaron and Julius Erving Kareem Abdul Jabbar and Joe Greene Jack Nicklaus and Chris Evert among others who redefined the role of athletes and athletics in American culture The Seventies witnessed the emergence of spectator sports as an ever expanding mainstream phenomenon as well as dramatic changes in the way athletes were paid portrayed and packaged In tracing the epic narrative of how American sports was transformed in the Seventies a larger story emerges of how America itself changed and how spectator sports moved decisively on a trajectory toward what it has become today the last truly big tent in American culture

The Making of Sporting Cultures John Hughson,2013-09-13 The Making of Sporting Cultures presents an analysis of western sport by examining how the collective passions and feelings of people have contributed to the making of sport as a way of life The popularity of sport is so pronounced in some cases that we speak of certain sports as national pastimes Baseball in the United States soccer in Britain and cricket in the Caribbean are among the relevant examples discussed Rather than regarding the historical development of sport as the outcome of passive spectator reception this work is interested in how sporting cultures have been made and developed over time through the active engagement of its enthusiasts This is to study the history of sport not only from below but also from within as a means to understanding the deep relationship between sport and people within class contexts the middle class as well as the working class Contestation over the making of sport along axes of race gender and class are discussed where relevant A range of cultural writers and theorists are examined in regard to both how their writing can help us understand the making of sport and as to how sport might be located within an overall cultural context in different places and times The book will appeal to students and academics within humanities disciplines such as cultural studies history and sociology and to those in sport studies programmes interested in the historical cultural and social aspects of sport This book was published as a special issue of Sport in Society Reader's Index and Guide ,1927 Muhammad Ali: The Greatest of All Time!
