Hauptman, 2005 Caught between description and dream the felt and the imagined French artist Odilon Redon whose career
bridged the 19th and 20th centuries transformed the natural world into nightmarish visions and bizarre fantasies Closely
allied with the Symbolist movement Redon offered his own interpretations of literary biblical and mythological subjects
created a universe of strange hybrid creatures and presented landscape in a singular way we see grinning disembodied teeth
smiling spiders melancholic floating faces winged chariots unfamiliar plant life and velvety black or colored swirls of
atmosphere With a recent gift from the Ian Woodner family The Museum of Modern Art is now the site of the most significant
body of the artist s work outside France and this book will showcase the full range of Redon s varied oeuvre charcoal noirs
luminous pastels richly textured canvases literary collaborations and experiments in printmaking and will illuminate the hold
his particular kind of modernism has had on both 20th century and contemporary artists **Prints and Portfolios by**
