Is Simple Johnjoe McFadden,2021-09-28 In short Life Is Simple is enthralling Michael Blastland Prospect A biologist argues that simplicity is the guiding principle of the universe Centuries ago the principle of Ockham s razor changed our world by showing simpler answers to be preferable and more often true In Life Is Simple scientist Johnjoe McFadden traces centuries of discoveries taking us from a geocentric cosmos to quantum mechanics and DNA arguing that simplicity has revealed profound answers to the greatest mysteries This is no coincidence From the laws that keep a ball in motion to those that govern evolution simplicity he claims has shaped the universe itself And in McFadden s view life could only have emerged by embracing maximal simplicity making the fundamental law of the universe a cosmic form of natural selection that favors survival of the simplest Recasting both the history of science and our universe s origins McFadden transforms our

Things We Know: Fifteen Essays on Problems of Knowledge Frank B. Ebersole, 2001-12-11 Reading Ebersole requires and often succeeds in producing a radical reorientation of one's thinking from a book review Things We Know is a collection of fifteen essays that focus on perennial philosophical problems about knowledge The essays let you participate in Frank Ebersole's unique struggles to come to terms with such questions as Can we know the world the past the future of God's existence whether our actions are free the foundations of logic and language This is not just another philosophy book about problems of knowledge In Things We Know Ebersole by carefully using examples exposes the problems to be the products of philosophical pictures The examples also make the pictures less compelling Thus by reading this philosophy book readers can join the author in working to free themselves from some perplexing philosophical concerns How the Second Edition differs from the First Edition This edition differs from the First Edition University of Oregon Books 1967 in three ways An essay is added Everyman's Ontological Argument has been inserted as Essay 14 following two other essays about the ontological argument Everyman's Ontological Argument was published in the Fall 1978 issue of Philosophical Investigations The original Chapter 14 Where the Action Is is now Chapter 15 An essay is replaced The original Essay 3 How Philosophers See Stars has been replaced by a modified version that was printed in Philosophy Today no 2 1969 The replacement includes some further improvements The text is improved Throughout the book the author has made corrections stylistic improvements and changed the wording as needed to make clearer his line of thought Summary Each of the fifteen essays takes up a philosophical problem In most of the essays Ebersole first clarifies the problem and reviews common attempts to resolve the problem Then he focuses on the central ideas and terms used to state the problem and creates examples of people using the terms under consideration The examples are unique because of their focus on the context and point of what we say If his investigations fail to find a use of the terms that supports the philosophical problem he is led to conclude that the problem does not really derive from a philosophical insight but rather arises from a philosophical picture or model Preface The essays in Things We Know address some of the perennial philosophical problems of knowledge The essays are unified by being similar in method and philosophic aim Ebersole exposes a picture behind each problem In the essays he works through some of the ways that pictures control our thinking and tries to make the pictures less compelling Chapters 1-6 Perception and Language Chapter 1 Seeing Red in Red Things Philosophical problem Must words for simple visual properties e.g. red refer to things because the things share some property e.g. redness Can we see this property Topics investigated Family resemblances properties of colors when we regard things as the same when we regard colors as the same when we regard things as having common properties language world philosophical pictures Philosophers discussed A. J. Ayer J. Herder J. S. Mill

Chapter 2 Seeing Things Philosophical problem Do hallucinations and afterimage **Poultry Herald** ,1900 *The Flaming Sword* ,1928 *Scribner's Magazine ...* ,1924 Scribner's Magazine Edward Livermore Burlingame,Robert Bridges,Alfred Sheppard Dashiell,Harlan Logan,1924 **Moore's Rural New-Yorker** ,1898 *The Cat Journal* ,1911 **Our Fourfooted Friends and how We Treat Them** ,1909 *Wild Animals Photographed and Described* John Fortuné Nott,1886 **The Guide to Nature** ,1913
