Master Executioner:

The Master Executioner Loren D. Estleman, 2002-09-16 Hangman Oscar Stone is a master executioner who prides himself on his careful and exacting work until a sudden moment of realization and devastating truth forces him to come to terms with himself and his profession

Defiled Trades and Social Outcasts Kathy Stuart, 2000-05-04 This book presents a social and cultural history of dishonourable people *unehrliche Leute* an outcast group in early modern Germany Executioners skinners grave diggers shepherds barber surgeons millers linen weavers *sow gelders* latrine cleaners and bailiffs were among the dishonourable by virtue of their trades This dishonour was either hereditary often through several generations or it arose from ritual pollution whereby honourable citizens could become dishonourable by coming into casual contact with members of the outcast group The dishonourable milieu of the city of Augsburg from the sixteenth to the eighteenth centuries is reconstructed to show the extent to which dishonour determined the life chances and self identity of dishonourable people The book then investigates how honourable estates interacted with dishonourable people and how the pollution anxieties of early modern Germans structured social and political relations within honourable society

[The Great Nightmen Conspiracy](#) Tyge Krogh, 2019-08-20 The Great Nightmen Conspiracy explores the little known magico religious history of eighteenth century Denmark Essential tasks carried out by the nightmen such as dealing with carcasses and assisting with executions generated contempt from the rest of society but also led to the nightmen becoming deeply feared because of the dark and magical forces associated with their occupation The discovery of a dead peasant at the edge of the fjord on 4 December 1734 led to the arrest of the nightmen Mikkel and Hans in the nearby market town of Kalundborg in Zealand In court their interrogation focused not on the suspected murder but on thefts of livestock immorality and other provocations committed by these socially ostracised nightmen The court case became the largest of its time implicating nightmen across half of Zealand and exposing divisions within society This book uses a minutely researched set of incidents centring on the Danish pariah caste of nightmen to bring to light this unknown magico religious side of Denmark Through microhistorical methodology The Great Nightmen Conspiracy presents a detailed insight into the lives of the nightmen in Kalundborg and the society that constructed their alienation It is ideal for academics and postgraduate students of microhistory and urban history

The object and scope of the present study I have indicated in the introductory chapter I wish only to state here the methods of treatment employed in this essay and its main points of departure from traditional scholarship in China Since the present essay is intended to be an historical study the first problem it has had to face is the choice of source material It is impossible for an occidental reader to imagine the tremendous burden of tradition which I have found necessary to otherthrow in writing this work
