The Bass Fishing Guide Dr Wendy Grey,2022-09-03 FISHING GUIDE FRESHWATER FISHING BASS FISHING BOOKS HOW TO FISH FISHING TACKLE Bass fishing is a type of fishing in which you set out to catch particular types of fish largemouth bass but also smallmouth bass There are a few different types of bass for a bass fisherman to consider when chasing this game fish The most common are largemouth and

smallmouth bass The largemouth bass is most common in lakes ponds and other still water bodies that have ample vegetation are considered good bass fisheries They prefer lakes and ponds with sand or gravel bottoms that also support other species Smallmouth bass is more common in colder water and is most common in the Great Lakes area These are a more invasive species and are not as highly desirable as the largemouth variety However both are meaty fish with ample amounts of flesh if you are fishing to eat They are also exceedingly easy to catch known for a good fight when hooked and are a favorite fish for any experienced angler People love bass fishing first and foremost because of the ease of catching them and how easy it is to get into bass fishing It does not require any unique bass fishing tackle poles or lures As well does not require an immense amount of skill Equally it also does not require taking any long bass fishing trip to find this game fish Largemouth bass fishing can be done nearly anywhere even in places like Florida You can find bass fishing in almost any water source They are easily attracted to artificial lures and worms and other smaller natural baits so they are highly recommended for people of all skill levels ages and means Additionally dedicated anglers specializing in fly fishing love catching bass Bass fishing is especially fun when you want active fishing because they are aggressive fish They are very aggressive and still not everyone finds them easily accessible They generally go after much live bait in their range without additional support But others prefer trout panfish or catfish several species they find more fun Crappie may have similar hook styles but it can be best used on the biggest bass to some people Some anglers also develop a preference for Smallmouth over largemouth bass I m trying to find people who think bass fish are fun for the whole family Definitely not so easy to find them The bait is the main thing to keep in mind when fishing for bass They are not generally attracted to fly fishing baits they are not always going to be attracted to the flashiest bait you have and they are not going to be overly attracted to a bait that moves around too much So dropping your bait and waiting is the best way to catch bass and to catch one that is going to be worth catching and worth eating if you are keeping the fish Using live bait or worms is a great way to start as they are a common food source for bass living in ponds Worms are also cheap or free if you dig your own You can use rubber worms that are rather wiggly and that do look real or you can use grubs Bass are going to be caught without a ton of trouble When it comes to fishing it is always best to find out more about the fish you are hoping to catch Fish are more intelligent than we think For example take deep sea fishing to make it relatively easy to bait with sea bass Want to learn more Read **The Bass Fishing** By Dr Wendy Grey **The Cumulative Book Index** ,1990 A world list of books in the English language **Subject Guide to Books in Print** ,2001
