Persistent Object Systems: Design, Implementation, and Use Graham N.C. Kirby, Alan Dearle, Dag I.K. Sjöberg, 2003-06-30
The Ninth International Workshop on Persistent Object Systems POS 9 took place at the SAS Radisson Hotel in Lillehammer Norway from 6th to 8th September 2000 Previous workshops in the series have been held in Scotland 1 and 2 Australia 3 the USA 4 Italy 5 France 6 and the USA 7 and 8 In keeping with those workshops POS 9 was short but intensive fitting 28 papers and panel sessions a boat 1 excursion and some memorable meals into two and a half days The participants concentration was no doubt helped by the Northern European weather that prevailed for most of the workshop Continuing a trend experienced over the previous few workshops POS 9 had difficulty attracting a high number of papers Of course it is hard to tell whether this is a problem with the field of persistent systems itself or merely a consequence of the increasing number of workshops conferences and journals competing for submissions In his Epilogue to the proceedings Ron Morrison makes some interesting suggestions for possible improvements to future POS workshops Out of a total of 26 submitted papers 19 were accepted for presentation at the 2 workshop Breaking down by region 6 1 2 came from the USA 1 from Africa 3 1 2 from Australia and 8 from Europe In a new development for POS an equal number of papers came from England and from Scotland

Thought and Things: Functional logic, or genetic theory of knowledge James Mark Baldwin, 1906
Thought and Things James Mark Baldwin, 1906 Locke on Essence and Identity C.H. Conn, 2012-12-06 I first became interested in the relationship between Locke's anti essentialism and his theory of identity in a first year graduate course on metaphysics taught at Syracuse University by Jose Benardete I had until then approached Locke as a safe commonsense philosopher whose metaphysical agenda constrained as it was by his concept empiricism was largely geared towards upholding a scientifically enlightened broadly Christian worldview I am greatly indebted to Professor Benardete for disabusing me of this understanding of Locke's work Benardete's Locke was not the Locke that I had been exposed to as an undergraduate not the Locke that I had found in Copleston's History of Philosophy Rather he was a profoundly creative and audacious metaphysician who was justly perceived to be a tremendously dangerous philosopher by his more traditional contemporaries And as much I had admired Copleston's Locke I have become positively enthralled with Benardete's The topics of identity and essentialism have become mainstays of contemporary metaphysics and it is no understatement to say that Locke's contribution to modern debates on these matters is enormous My early interest in Locke's work on essentialism and identity through time was motivated by two factors First although there are a number of obvious and significant conceptual connections between these topics Locke's own theorizing about identity seems not to have been informed by his critique of essentialism or vice versa The Journal of Speculative Philosophy, 1883 Reconceiving Spinoza Samuel Newlands, 2018-05-11 Samuel Newlands provides a sweeping new account of Spinoza's metaphysical system and the way it shapes and is shaped by his moral project Newlands also shows how Spinoza can be read fruitfully alongside recent

developments in contemporary analytic philosophy According to Newlands conceptual relations form the backbone of Spinoza s explanatory project and enable him to do everything from reconciling monism and diversity to motivating altruism within egoism Spinoza s conceptualism culminates in his call to a radical form of self transcendence Readers will be invited to reconceive not only Spinoza s project but also the world and perhaps even themselves along the way **The Persistent Problems of Philosophy** Mary Whiton Calkins,1908 **Personal Traits and Success in Teaching** Elizabeth Hunt Morris,1929 Reprint of the 1929 ed issued in series Teachers College Columbia University Contributions to education no 342

The Metaphysic of Experience Shadworth Hollway Hodgson,1898 **Emotional Insight** Michael S. Brady,2013-11-28 Michael S Brady presents a fresh perspective on how to understand the difference that emotions can make to our lives It is a commonplace that emotions can give us information about the world we are told for instance that sometimes it is a good idea to listen to our heart when trying to figure out what to believe In particular many people think that emotions can give us information about value fear can inform us about danger guilt about moral wrongs pride about achievement But how are we to understand the positive contribution that emotions can make to our beliefs in general and to our beliefs about value in particular And what are the conditions in which emotions make such a contribution Emotional Insight aims to answer these questions In doing so it illuminates a central tenet of common sense thinking contributes to an on going debate in the philosophy of emotion and illustrates something important about the nature of emotion itself For a central claim of the book is that we should reject the idea that emotional experiences give us information in the same way that perceptual experiences do The book rejects in other words the Perceptual Model of emotion Instead the epistemological story that the book tells will be grounded in a novel and distinctive account of what emotions are and what emotions do On this account emotions help to serve our epistemic needs by capturing our attention and by facilitating a reassessment or reappraisal of the evaluative information that emotions themselves provide As a result emotions can promote understanding of and insight into ourselves and our evaluative landscape *The Classical Weekly* ,1920 **Mind** ,1920 A quarterly review of philosophy **The Classical World** ,1917 **Our Paper** ,1906 **The Human Mind** James Sully,1892
