October Revolution:

The October Revolution in Prospect and Retrospect John Marot,2012-06-08 In a series of probing analytical essays John Marot tracks the development of Bolshevism through the prism of pre 1917 intra Russian Social Democratic controversies in politics and philosophy For 1917 the author presents a critique of social historical interpretation of the Russian Revolution Turning to NEP Russia the author applies Robert Brenner s analysis of pre capitalist modes of production and concludes that neither Bukharin nor Trotsky s NEP premised programs of economic transformation and advance toward socialism were feasible At the same time he rejects the view that Stalinism was pre destined to supplant NEP Instead he hypothesises that the superior alternative to Stalinism was NEP without collectivization and the Five Year Plans a outcome that would have been possible had Bukharin and Trotsky joined forces to stop Stalin *October Revolution (1917-1918)*. , Features a timeline of events leading up to the October Revolution 1917 1918 in Russia Includes photographs and images of documents and other items Links to timelines relating to other parts of Russian history

Lenin's Electoral Strategy from 1907 to the October Revolution of 1917 August H. Nimtz,2014-03-13 This book is the first full length study of Lenin s party building project and writings on elections looking in detail at his leadership of the Bolshevik wing of the Russian Social Democratic Labor Party in the four state Dumas from 1906 to the beginning of the First World War

Complete Guide to the October Theory Margot Steele,2024-10-11 The October Theory is an intriguing concept that attempts to explain how the month of October exerts a profound influence on nature culture psychology and history At first glance it might seem odd to single out a specific month for deep reflection but October holds a unique place in the calendar and the collective consciousness It stands at the intersection between the warmth of summer and the cold of winter making it a month that naturally invites contemplation and change For centuries humans have observed the seasonal transition that occurs in October marking it as a time for harvest reflection and preparation for the winter months ahead In many cultures October is a symbol of transformation both in the natural world and within the human mind The October Theory aims to explore this transitional period by looking at its historical origins cultural importance psychological impacts and its reflection in art and literature In crafting this preface the goal is to offer a window into what October represents not just as a mere month but as a catalyst for change and transformation October like a prism reflects a variety of meanings depending on how one chooses to examine it Whether it be the historical revolutions that took place in this month the seasonal shifts in nature or the psychological transformations many undergo October is full of significance The October Theory is built on a foundation of historical understanding philosophical reflection and cultural observation Each chapter in this work will dive deeper into the key aspects of the theory from its basic principles to its relevance in modern times We will explore how October has influenced people in the past and how it continues to shape our perceptions today Through this exploration we aim to give readers a comprehensive understanding of why October holds such a special place in the human experience One of the

driving ideas behind October Theory is the notion that October more than any other month challenges us to confront change. It is a month of harvest and decay of endings and beginnings of light and darkness. This duality is at the heart of October Theory and understanding it can offer us insights into broader patterns of transformation both in the external world and within ourselves. As we embark on this journey into October Theory we encourage readers to remain open to the idea that the mundane and the profound often coexist in the same space. October may seem like just another month but within it lies a world of symbolism and meaning that has the power to enrich our understanding of the world.

Red October Robert Vincent Daniels, 1967. The Russian Revolution is the collective term for a series of revolutions in Russia in 1917 which dismantled the Tsarist autocracy and led to the creation of the Russian SFSR. The Emperor was forced to abdicate and the old regime was replaced by a provisional government during the first revolution of February 1917. March in the Gregorian calendar, the older Julian calendar was in use in Russia at the time. In the second revolution during October the Provisional Government was removed and replaced with a Bolshevik Communist government.

Wikipedia October and the World Paul Dukes, 1979. Ten Days That Shook the World John Reed, 2020-08-11. The classic account of the Russian Revolution by an American journalist who witnessed it firsthand. John Reed, an American writer for a socialist magazine, was in Petrograd when the Bolsheviks seized power in November 1917 and Russia began its transformation into the Soviet Union. Read by Lenin himself and adapted into a film by Sergei Eisenstein. Reed's eyewitness account is a masterpiece of twentieth-century reporting. Acknowledged by the author as a sympathetic portrait of the revolution, *Ten Days That Shook the World* was nevertheless praised by the decidedly non-Communist historian George Kennan for its literary power and command of detail and banned by none other than Stalin. It remains a riveting and remarkable record of this world-altering event, vividly capturing the words and deeds of both leaders and ordinary people in a moment of radical change.

Telling October Frederick C. Corney, 2004. *Telling October* chronicles the construction of an official foundation narrative by the Soviet Union as the new state sought to legitimise itself by portraying the October Revolution as the inevitable culmination of a historical process.

Russian Revolution Henry Freeman, 2016-05-30. Russian Revolution. The Russian Revolution in 1917 was a moment in time when the will of the people put an end to a system of government that had been in place for centuries. The story of Russia's transition from Imperial reign to eventual Communist dictatorship is a tale rooted in the ranks of the common people and the men who rose to lead them. Inside you will read about Czarist Rule, Karl Marx and Friedrich Engels, Nicholas Romanov, Rasputin, World War, Lenin, October Revolution, Stalin, and much more. Dedication to the ideals of socialism remade Russian society. Worker's Rights, human equality, world war, murder, mysticism, blood, and tyranny collide in the heart of Russia to irrevocably alter the culture of this great nation and the world.

Appearances of Soviet Leaders United States Central Intelligence Agency, 1969. The October Revolution Roy Aleksandrovich Medvedev, 1979. History of the October Revolution Institut istorii (Akademii nauk SSSR), 1966. **The Russian Revolution** Sheila Fitzpatrick, 2001. This

provocative and eminently readable work looks at the many upheavals of the Russian Revolution as successive stages in a single process Focusing on the Russian Revolution in its widest sense Fitzpatrick covers not only the events of 1917 and what preceded them but the nature of the social transformation brought about by the Bolsheviks after they took power Making use of a huge amount of previously secret information in Soviet archives and unpublished memoirs this detailed chronology recounts each monumental event from the February and October Revolutions of 1917 and the Civil War of 1918 1920 through the New Economic Policy of 1921 and the 1929 First Five Year Plan to Stalin s revolution from above at the end of the 1920s and the Great Purge of the late 1930s Lucid and concise this classic study makes comprehensible the complex events of the revolution

Red October Douglas Boyd,2017-08-01 The October Revolution happened in November 1917 Later Soviet propaganda pretended for several decades that it was the will of the people but in reality the brutal rebellion which killed millions and raised the numerically tiny Bolshevik Party to power was made possible by massive injections of German money laundered through a Swedish bank The so called workers and peasants revolution had a cast of millions of which the three stars were neither workers nor peasants Nor were they Russian Josef V Djugashvili Stalin was a Georgian who never did speak perfect Russian Leiba Bronstein Trotsky was a Jewish Ukrainian Vladimir I Ulyanov Lenin was a mixture of Tatar and other Asiatic bloodlines Karl Marx had thought that the Communist revolution would happen in an industrialised country like Germany Instead German cash enabled Lenin Trotsky Stalin and Co to destroy ineffective tsarist rule and declare war on the whole world This is how they did it told largely in the words of people who were there
