**A Poverty of Rights** Brodwyn Fischer, 2022 A Poverty of Rights is an investigation of the knotty ties between citizenship and inequality during the years when the legal and institutional bases for modern Brazilian citizenship originated Between 1930 and 1964 Brazilian law dramatically extended its range and power and citizenship began to signify real political economic and civil rights for common people And yet even in Rio de Janeiro Brazil s national capital until 1960 this process did not include everyone Rio s poorest residents sought with hope imagination and will to claim myriad forms of citizenship as their own Yet blocked by bureaucratic obstacles or ignored by unrealistic laws they found that their poverty remained one of rights as well as resources At the end of a period most notable for citizenship s expansion Rio s poor still found themselves akin to illegal immigrants in their own land negotiating important components of their lives outside of the boundaries and protections of laws and rights their vulnerability increasingly critical to important networks of profit and political power In exploring this process Brodwyn Fischer offers a critical re interpretation not only of Brazil s Vargas regime but also of Rio s twentieth century urban history and of the broader significance of law rights and informality in the lives of the very poor
