Mein Judentum:

György Ligeti's Cultural Identities Amy Bauer, Márton Kerékfy, 2017-10-02 Since György Ligeti's death in 2006 there has been a growing acknowledgement of how central he was to the late twentieth century cultural landscape. This collection is the first book devoted to exploring the composer's life and music within the context of his East European roots, revealing his dual identities as both Hungarian national and cosmopolitan modernist. Contributors explore the artistic and socio-cultural contexts of Ligeti's early works, including composition and music theory, the influence of East European folk music, notions of home and identity, his ambivalent attitude to his Hungarian past, and his references to his homeland in his later music. Many of the valuable insights offered profit from new research undertaken at the Paul Sacher Foundation, Basel, while also drawing on the knowledge of long-time associates such as the composer's assistant Louise Duchesneau. The contributions as a whole reveal Ligeti's thoroughly cosmopolitan milieu and values and illuminate why his music continues to inspire new generations of performers, composers, and listeners.

Essays on Antisemitism, Anti-Zionism, and the Left Jean Améry, 2022-01-04 This is a collection of essays by world-famous author Jean Améry translated into English for the first time. Although written prior to his death in 1978, their insights are as contemporary and fresh as ever given the current political climate. Améry's works have been a mainstay of IUP's Holocaust list of decades.

Kafka and the Universal Arthur Cools, Vivian Liska, 2016-07-25 Kafka's work has been attributed a universal significance and is often regarded as the ultimate witness of the human condition in the twentieth century. Yet his work is also considered paradigmatic for the expression of the singular that cannot be subsumed under any generalization. This paradox engenders questions not only concerning the meaning of the universal as it manifests itself in and is transformed by Kafka's writings, but also about the expression of the singular in literary fiction as it challenges the opposition between the universal and the singular. The contributions in this volume approach these questions from a variety of perspectives. They are structured according to the following issues: ambiguity as a tool of deconstructing the pre-established philosophical meanings of the universal; the concept of the law as a major symbol for the universal meaning of Kafka's writings; the presence of animals in Kafka's texts; the modernist mode of writing as challenge of philosophical concepts of the universal; and the meaning and relevance of the universal in contemporary Kafka reception. This volume examines central aspects of the interplay between philosophy and literature.

Dislocated Memories Tina Frühauf, Lily Hirsch, 2014-09-11 Winner of the 2015 Ruth A. Solie Award from the American Musicological Society. The first volume of its kind, *Dislocated Memories: Jews, Music, and Postwar German Culture* draws together three significant areas of inquiry: Jewish music, German culture, and the legacy of the Holocaust. Jewish music, a highly debated topic, encompasses a multiplicity of musics and cultures reflecting an inherent and evolving hybridity and transnationalism. German culture refers to an equally diverse concept that in this volume includes the various cultures of prewar Germany, occupied Germany, the divided and reunified Germany, and even German Jewish memory, which is not

necessarily physically bound to Germany In the context of these perspectives the volume makes powerful arguments about the impact of the Holocaust and its aftermath in changing contexts of musical performance and composition In doing so the essays in *Dislocated Memories* cover a wide spectrum of topics from the immediate postwar period with music in the Displaced Persons camps to the later twentieth century with compositions conceived in response to the Holocaust and the klezmer revival at the turn of this century *Dislocated Memories* builds on a wide range of recent and critical scholarship in Cold War studies cultural history German studies Holocaust studies Jewish studies and memory studies What binds these distinct fields tightly together are the contributors specific theoretical inquiries that reflect separate yet interrelated themes such as displacement and memory While these concepts link the multi faceted essays on a micro level they are also largely connected in their conceptual query by focus on the macro level on the presence and the absence of Jewish music in Germany after 1945 Filled with original research by scholars at the forefront of music history and Jewish studies *Dislocated Memories* will prove an essential text for scholars and students alike
