[A Practical Introduction to Just Intonation Through String Quartet Playing](#) Timothy James Cuffman,2016 Intonation is one of the most important issues facing performers of string quartets Often string students learn to play in tune strictly in terms of their own melodic line To play in tune in a string quartet requires an understanding of the underlying harmony and how intonation can be fluid and flexible in an ensemble This paper offers students an introduction to harmonic intonation and provides exercises to put this knowledge into practice The text begins with instruction and exercises related to perfect intervals which form the basis for intonation Next consonant intervals are discussed along with exercises for practice and ear training Chords are constructed and practiced upon the basis of this interval practice Student quartets are then asked to play excerpts from the repertoire presented as harmonic reductions and as originally written in order to connect the theoretical knowledge to the string quartet repertoire Finally chorales by J S Bach arranged for string quartet are provided for continuing practice of intonation in tonal harmony It is not the attempt of this project to teach music theory or present a comprehensive study of the many issues and challenges related to intonation in string quartet playing The aim of this essay is to provide students with a solid foundation and practical application of basic principles of playing in tune in a string quartet
