**Governing Disorder** Laura Zanotti,2011-02-02 The end of the Cold War created an opportunity for the United Nations to reconceptualize the rationale and extent of its peacebuilding efforts and in the 1990s democracy and good governance became legitimizing concepts for an expansion of UN activities The United Nations sought not only to democratize disorderly states but also to take responsibility for protecting people around the world from a range of dangers including poverty disease natural disasters and gross violations of human rights National sovereignty came to be considered less an entitlement enforced by international law than a privilege based on states satisfactory performance of their perceived obligations In *Governing Disorder* Laura Zanotti combines her firsthand experience of UN peacebuilding operations with the insights of Michel Foucault to examine the genealogy of post Cold War discourses promoting international security Zanotti also maps the changes in legitimizing principles for intervention explores the specific techniques of governance deployed in UN operations and identifies the forms of resistance these operations encounter from local populations and the often unintended political consequences they produce Case studies of UN interventions in Haiti and Croatia allow her to highlight the dynamics at play in the interactions between local societies and international peacekeepers      Publication ,1971

**Progress on household drinking water, sanitation and hygiene 2000-2024** World Health Organization,United

Nations Children's Fund,2025-10-23 This JMP progress report presents global trends in household drinking water sanitation hygiene and menstrual health from 2000 to 2024 It tracks progress toward SDG targets and highlights persistent inequalities across regions income groups and demographic characteristics The report incorporates expanded datasets and new indicators offering clearer insights into service disparities fragile contexts and menstrual health needs Between 2000 and 2024 the global population rose from 6.2 to 8.2 billion Over this period about a quarter of the population 2.2 billion gained access to safely managed drinking water and a third 2.8 billion to safely managed sanitation Yet progress has been uneven and the number of people left behind has fallen more slowly Since 2015 the distribution of the unserved has shifted the proportion of the population with sanitation services has risen quickly in rural areas while staying relatively flat in urban areas However in terms of raw numbers most of the gains have been realized in urban areas Basic hygiene access has improved especially in rural areas and the share of people unserved has increasingly concentrated in low income countries
