Making Do and Hanging On Bruce L. Foxworthy, 2008-10. No place in America escaped the impacts of the Great Depression from 1929 to 1939. Even the quiet orchard-filled Entiat Valley of the author's boyhood suffered its cruel effects. *Making Do and Hanging On: Growing Up in Apple Country Through the Great Depression* presents the author's recollections during those mean years, memories of local conditions and events and of his family's coping with seemingly endless setbacks in its struggles upward. These memoirs, sometimes stark, sometimes poignant, sometimes touched with humor, call up thought-provoking parallels to modern events.

Libertas and Thunderbolt Ronald L. Clark, 2012-07. CAUTION: Reading this book may cause your mind to be deliberately stretched well beyond its ability to shrink back to its original dimensions. Carl Sagan, Steven Hawking, and others are well known for their theory of why we do not see abundant intelligent extraterrestrial life all around us. The reason being that once intelligent life discovers technology, that technology is used in a self-destructive orgy that brings about the extinction of all intelligent life within reach. So when one looks out into the Cosmos to search for intelligent life, all life that once was there no longer exists, save mankind. This theory of course has profound implications for us stranded here on spaceship Earth, especially as we watch in horror as our technology grinds out bigger and more powerful weapons of mass destruction every day. This book is a flight of fancy that supposes our Creators with profound apologies to those who do not believe we have Creators, have undertaken a mission to save Humankind from blowing themselves to kingdom come, just like all of the other Intelligent life has already done well before mankind began to build parking lots and condos. Our Creators have names, and their names are Yahweh and Asherah.

So come take an interstellar ride with Yahweh and Asherah as they struggle to help Humankind become an exception to the doomsday theories of Sagan and Hawking
