

A photograph of a brick building with a prominent entrance featuring four large, reddish-brown columns. The entrance is a glass-fronted area with a sign that reads "Edmonds Marshall McMahon". The interior of the building is visible through the glass, showing a modern office space with desks and lighting. The building is set against a dark background, possibly at dusk or night.

Private Prosecution:

Private Prosecution in America John D. Bessler, 2021 Private Prosecution in America is the first comprehensive examination of a practice that dates back to the colonial era Tracking its origins to medieval times and the English common law the book shows how private prosecutors were once a mainstay of early American criminal procedure Private prosecutors acting on their own behalf as next of kin or through retained counsel initiated prosecutions presented evidence in court and sought the punishment of offenders Until the rise and professionalization of public prosecutors offices private prosecutors played a major role in the criminal justice system including in capital cases After conducting a 50 state survey and recounting how some locales still allow private prosecutions by interested parties the book argues that such prosecutions violate defendants constitutional rights and should be outlawed *Victims as Agents of State Accountability* Marie

Manikis, 2026-03-02 While prevailing accounts of victim participation often frame victims as holders of primarily private interests victims in common law jurisdictions have increasingly emerged as active public participants in criminal justice systems With a comparative focus on England and Wales and the United States *Victims as Agents of State Accountability* recharacterizes victims as agents of accountability in state decision making Through historical empirical and case based analysis this book advances a normative framework that positions the victim s role as a civic duty enhancing transparency legitimacy and substantive equality in prosecutorial decisions Accordingly mechanisms of state accountability are examined such as private prosecutions judicial review and internal review schemes illustrating how their potential for accountability differs depending on whether victims are recognised as advancing primarily public or private interests Case studies demonstrate the limits of conceiving victim interests as private and the possibilities of substantive assessments of prosecutorial decisions when interests are understood as public Ultimately the book contributes to debates in criminal law and justice by proposing an accountability role that is reflexive and equality driven Its comparative and normative insights provide guidance for common law jurisdictions and beyond highlighting the importance of recognising victims as legitimate participants in shaping the public interest and holding the state accountable within criminal justice **Procedures in**

Criminal Law in Kenya Momanyi Bwonwong'a, 1994 *Prosecutorial Accountability and Victims' Rights in Latin America* Verónica Michel, 2018-01-18 The responsibility of any state is to protect its citizens But if a state either through omission or commission fails to investigate and prosecute crime then what remedies do citizens have Verónica Michel investigates procedural rights in Chile Guatemala and Mexico that allow citizens to call for the appointment of a private prosecutor to initiate criminal investigations This right diminishes the monopoly of the state over criminal prosecutions and thus offers citizens a way of insisting on state accountability This book provides the first full length empirical study of how the victims right to private prosecution can impact access to justice in Latin America and shows how institutional and legal arrangements interact to shape the politics of criminal justice By examining homicide cases in detail Michel highlights how

everyday legal struggles can help build the rule of law from below

Restoring Justice Daniel W. Van Ness, Karen Heetderks Strong, Jonathan Derby, L. Lynette Parker, 2022-05-30 Restoring Justice An Introduction to Restorative Justice Sixth Edition offers a clear and convincing explanation of restorative justice a movement within criminal justice with ongoing worldwide influence The book explores the broad appeal of this vision and offers a brief history of its roots and development as an alternative to an impersonal justice system focused narrowly on the conviction and punishment of those who break the law Instead restorative justice emphasizes repairing the harm caused or revealed by criminal behavior using cooperative processes that include all the stakeholders The book presents the theory and principles of restorative justice and discusses its four cornerpost ideas Inclusion Encounter Repair and Cohesion Multiple models for how restorative justice may be incorporated into criminal justice are explored and the book proposes an approach to assessing the extent to which programs or systems are actually restorative in practice The authors also suggest six strategic objectives to significantly expand the use and reach of restorative justice and recommended tactics to make progress towards the acceptance and adoption of restorative programs and systems
