**Public Affairs, Private Relations** Letitia Baldrige, 1991      Handbook of Relationship Initiation Susan Sprecher, Amy Wenzel, John Harvey, 2018-09-05 The Handbook of Relationship Initiation is the first volume to focus specifically on the very beginning stage of relationships their origin In this Handbook leading scholars on relationships review the literature on various processes related to the initiation of relationships how people meet communicate for the first time and begin to define themselves as being in a relationship Topics include attraction mate selection influence of social networks on relationship initiation initiation over the internet hook ups among young adults and flirting and opening gambits In addition the dark side of relationship initiation is considered including unwanted relationship pursuit and barriers to relationship initiation including social anxiety This volume provides an overdue synthesis of the literature on this topic It is especially timely in view of the growing prevalence on relationship initiation online through matchmaking and other social networking sites which has increased awareness that science can be used to understand create and facilitate compatible matching This Handbook provides an essential resource for an interdisciplinary range of researchers and students who study relationships including social psychologists communication scientists and scholars of marriage and the family      Relationships in Marriage & Family Nick Stinnett, James Walters, 1977      *Master Conflict Therapy* Stephen J. Betchen, Heather L. Davidson, 2018-04-17 Illustrated with case studies this book teaches couples and sex therapists the comprehensive integrative treatment approach of master conflict therapy MCT which combines psychoanalytic conflict theory and Bowen Theory with the basic principles and practice of sex therapy MCT suggests that each partner has an internal conflict born out of their experiences from their respective families of origin Partners then choose one another based on these conflicts and it is only when they are out of balance that the couple experiences symptoms The authors help clinicians treat couples through providing them with a solid theoretical foundation a practical assessment procedure and highly effective treatment techniques to re balance a couple and in turn alleviate their sexual symptoms      Relations Between the Sexes Robert L. Ping, 1979      **Sociology for Optimists** Mary Holmes, 2016-09-10 Breaking away from the idea that sociology only ever elaborates the negative Sociology for Optimists shows that sociology can provide hope in dealing with social issues through critical approaches that acknowledge the positive From politics and inequality to nature and faith Mary Holmes shows how a critical and optimistic sociology can help us think about and understand human experience not just in terms of social problems but in terms of a human capacity to respond to those problems and strive for social change With contemporary case studies throughout grounding the theory in the real world this is the perfect companion antidote to studying sociology      *Traditional Marriage and Emerging Alternatives* Edgar W. Internet dating and Net cruising featuring as narrative devices in hit television shows Yet to date the relationship between urban gay male culture and digital media technologies has received only limited critical attention Gaydar Culture explores the integration of specific techno cultural practices within contemporary gay male sub culture Taking British gay culture as its primary interest the book locates its critical discussion within the wider global context of a proliferating model of Western metropolitan gay male culture Making use of a series of case studies in the development of a theoretical framework through which past present and future practices of digital immersion can be understood and critiqued this book constitutes a timely intervention into the fields of digital media studies cultural studies and the study of gender and sexuality
