Privileged Lives:

Privileged Lives Edward Stewart, 1993 Inclusion and Democracy Iris Marion Young, 2002 Democratic equality entails a principle that everyone whose basic interests are affected by policies should be included in the process of making them Yet individuals and groups often claim that decision making processes are dominated by only some of the interests and perspectives in the society What are the ideals of inclusion through which such criticisms should be made and which might guide more inclusive political practice This book considers that question from the point of view of norms of democratic communication processes of representation and association and how wide the scope of political jurisdictions should be Democratic theorists have not sufficiently attended to the ways processes of debate and decision making often marginalize individuals and groups because the norms of political discussion are biased against some forms of expression Inclusion and Democracy broadens our understanding of democratic communication by reflecting on the positive political functions of narrative rhetorically situated appeals and public protest It reconstructs concepts of civil society and public sphere as enacting such plural forms of communication among debating citizens in large scale societies The book considers issues of the scope of the polity at two levels global and local The scope of a polity should extend as wide as the scope of social and economic interactions that raise issues of justice Today this implies the need for global democratic institutions At a more local level processes of residential segregation and the design of municipal jurisdictions often result in the ability for actions in one locale to affect those in other locales without those making the decisions having to include some of those affected in the decision making process Metropolitan governments which preserve significant local autonomy may therefore be necessary to promote political equality *Dublin* David Dickson, 2014-11-24 As rich and diverse as its subject Dickson's magisterial history brings 1 400 years of Dublin vividly to life from its medieval incarnation through the neoclassical eighteenth century the Easter Rising that convulsed the city in 1916 the bloody civil war following the handover of power by Britain to end of millennium urban renewal efforts **The Repugnant Conclusion** Christopher Cowie, 2019-11-18 The Repugnant Conclusion is a controversial theorem about population size It states that a sufficiently large population of lives that are barely worth living is better than a smaller population of high quality lives This is highly counter intuitive It implies that we can improve the world by trading quality of life for quantity of lives Can it be defended Christopher Cowie explores these questions and unpacks the controversies surrounding the Repugnant Conclusion He focuses on whether the truth of the Repugnant Conclusion turns as some have claimed on the uncomfortable claim that many people's lives are actually bad for them and that even privileged people lead lives that are only just worth living Highly recommended for those interested in ethics applied ethics and population studies The Repugnant Conclusion will also be of interest to those in related disciplines such as economics development studies politics and international relations The Unsettling of Europe Peter Gatrell, 2019-08-27 An acclaimed historian examines postwar migration's fundamental role in shaping modern Europe

Migration is perhaps the most pressing issue of our time and it has completely decentered European politics in recent years. But as we consider the current refugee crisis, acclaimed historian Peter Gatrell reminds us that the history of Europe has always been one of people on the move. The end of World War II left Europe in a state of confusion with many Europeans virtually stateless. Later, as former colonial states gained national independence, colonists and their supporters migrated to often unwelcoming metropolises. The collapse of communism in 1989 marked another fundamental turning point. Gatrell places migration at the center of post-war European history and the aspirations of migrants themselves at the center of the story of migration. This is an urgent history that will reshape our understanding of modern Europe. [The Repugnant Conclusion](#)

Jesper Ryberg, Torbjörn Tännsjö, 2007-11-10. Most people, including moral philosophers, when faced with the fact that some of their cherished moral views lead up to the Repugnant Conclusion, feel that they have to revise their moral outlook. However, it is a moot question as to how this should be done. It is not an easy thing to say how one should avoid the Repugnant Conclusion without having to face even more serious implications from one's basic moral outlook. Several such attempts are presented in this volume. This is the first volume devoted entirely to the cardinal problem of modern population ethics known as The Repugnant Conclusion. This book is a must for moral philosophers with an interest in population ethics. **The Bitch in the House**

Cathi Hanauer, 2013-04-30. Virginia Woolf introduced us to the Angel in the House; now prepare to meet The Bitch in the House. This e-book includes an exclusive excerpt from *The Bitch is Back: Older, Wiser, and Getting Happier*, a second collection of essays from nine of the contributors featured in *The Bitch in the House* and from sixteen captivating new voices. Women today have more choices than at any time in history, yet many smart, ambitious contemporary women are finding themselves angry, dissatisfied, stressed out. Why are they dissatisfied? And what do they really want? These questions form the premise of this passionate, provocative, funny, searingly honest collection of original essays in which twenty-six women writers, ranging in age from twenty-four to sixty-five, single and childless or married with children or four times divorced, invite readers into their lives, minds, and bedrooms to talk about the choices they've made, what's working, and what's not. With wit and humor in prose as poetic and powerful as it is blunt and dead-on, these intriguing women offer details of their lives that they've never publicly revealed before, candidly sounding off on the difficult decisions and compromises of living with lovers, marrying, staying single, and having children; the perpetual tug-of-war between love and work, family and career; the struggle to simultaneously care for ailing parents and a young family; the myth of co-parenting; dealing with helpless mates and needy toddlers; the constrictions of traditional women's roles, as well as the clichés of feminism; anger at laid-back live-in lovers; content to live off a hardworking woman's checkbook; anger at being criticized for one's weight; anger directed at their mothers, right and wrong; and, well, more anger. This book was born out of anger, begins Cathi Hanauer, but the end result is an intimate sharing of experience that will move, amuse, and enlighten. *The Bitch in the House* is a perfect companion for your students as they plot a course through the many voices of modern feminism. This is the sound of the

collective voice of successful women today in all their anger grace and glory From The Bitch In the House I believed myself to be a feminist and I vowed never to fall into the same trap of domestic boredom and servitude that I saw my mother as being fully entrenched in never to settle for a life that was as I saw it lacking independence authority and respect E S Maduro page 5 Here are a few things people have said about me at the office You re unflappable Are you ever in a bad mood Here are things people okay the members of my family have said about me at home Mommy is always grumpy Why are you so tense You re too mean to live in this house and I want you to go back to work for the rest of your life Kristin van Ogtrop page 161 I didn t want to be a bad mother I wanted to be my mother safe protective rational calm without giving up all my anger because my anger fueled me Elissa Schappell page 195 The Commons ,1904 *Sordello & Cunizza* Eugene Benson,1903 *Social Rebuilders* Charles Reynolds Brown,1921 **AERA.** ,1927 **The Super Age** Bradley Schurman,2022-01-18 A demographic futurist explains the coming Super Age when there will be more people older than sixty five than those under the age of eighteen and explores what it could mean for our collective future Societies all over the world are getting older the result of the fact that we are living longer and having fewer children At some point in the near future much of the developed world will have at least twenty percent of their national populations over the age of sixty five Bradley Schurman calls this the Super Age Today Italy Japan and Germany have already reached the Super Age and another ten countries will have gone over the tipping point in 2021 Thirty five countries will be part of this club by the end of the decade This seismic shift in the world population can portend a period of tremendous growth or leave swaths of us behind Schurman explains how changing demographics will affect government and business and touch all of our lives Fewer people working and paying income taxes due to outdated employment and retirement practices could mean less money feeding popular programs such as Social Security and Medicare with greater numbers relying on them The forced retirement or redundancy of older workers could impact business by creating a shortage of workers which would likely drive wages up and result in inflation Corporations too must rethink marketing strategies older consumers are already purchasing the majority of new cars and they are a growing and vitally important market for health technologies and housing Architects and designers must re create homes and communities that are more inclusive of people of all ages and abilities If we aren t prepared for the changes to come Schurman warns we face economic stagnation increased isolation of at risk populations and accelerated decline of rural communities Instead we can plan now to harness the benefits of the Super Age extended and healthier lives more generational cooperation at work and home and new markets and products to explore The choice is ours to make **The Accountant** ,1914 *Mountain Life and Work* ,1928 Vols 1 12 include proceedings of the 13th 24th annual Conference of southern mountain workers Emigration conditions in Europe United States.
