## **Problems Of Religious Knowledge:**

*Problems of Religious Knowledge* Terence Penelhum, 1971      **Problems of Religious Knowledge** P. Munz, 1956

**Faith and Knowledge** John Hick, 2009-08-01 In this revision of his widely read study John Hick has taken advantage of constructive comments on the first edition to make the book more useful. New material has been added and the overall structure of the volume has been changed to strengthen it both as an introduction to the problem of religious knowledge and as an exposition of the view of faith that seems to him most adequate. There is a new chapter on the Thomist Catholic view of faith, a new treatment of the controversial notion of eschatological verification taking account of various published critiques of the concept and a new section on the way in which the Christian faith awareness of God expresses itself in a distinctive way of life.

**The Problem of Religious Knowledge** Douglas Clyde Macintosh, 1940      **The Problem of Religious Knowledge** William T. Blackstone, 1963 This book is designed for those who have this concern and puzzlement though of course it offers no guarantee of resolving such puzzlement. It is not designed to be a highly specialized and technical treatise in philosophy of religion but one which can be read and appreciated by students and educated laymen. It has two specific purposes: that of providing a clear picture of development in contemporary philosophy and the impact of these developments in philosophy of religion and that of systematically exploring the question: Is there religious knowledge? Contemporary philosophy is used as a point of reference for devising a framework within which this question can be answered. Space limitations have forced an all too brief treatment of some positions. Such brevity tends to distort but I have made efforts to avoid such distortion. Author's Preface

**Faith and Knowledge** John Hick, 1957      **Religious Language and the Problem of Religious Knowledge** Ronald E. Santoni, 1973      **Religions language and the problem of religious knowledge, edited with an introduction** Ronald E. Santoni,      Beyond Legitimation Donald Wiebe, 2016-01-01 The early essays in this volume proceed on the assumption that a compatibility system can be fashioned that will not only bring religious knowledge claims into harmony with scientific claims but will also show there to be a fundamental similarity of method in religious and scientific thinking. They are not however unambiguously successful. Consequently Professor Wiebe sets out in the succeeding essays to seek an understanding of the religion/science relationship that does not assume they must be compatible. That examination in the final analysis reveals a fundamental contradiction in the compatibility system building programme which more than suggests that religious belief/knowledge is beyond legitimation.

The Problem of Religious Knowledge Edward Norbeck, 1974      **Scientific Models for Religious Knowledge** Andrew Ralls Woodward, 2018-08-14 Most comparisons of science and religion are really comparisons of science and Christianity or science and Islam and so forth. In *Scientific Models for Religious Knowledge* the author aims to get outside typical polarized debates between traditional a priori theism and radical scientific naturalism. Instead a new science and religion compatibility system between a scientific study of religion and a religious epistemology is our new elusive problem. Moreover we shall look at a comparison and

contrast of modern science with the simple deference of the human mind to the actions of culturally postulated superhuman agents This book pays critical attention to the contributions of scholars in the philosophy of religion the philosophy of science and the scientific study of religion Scientific Models for Religious Knowledge is useful for readers looking to expand their learning in the philosophies of science and religion as these subjects are taught and analyzed in modern research universities
