Problematizing Blackness:

Problematizing Blackness Jean Muteba Rahier, Percy Hintzen, 2014-04-08 This cutting edge piece of scholarship studies the invisibility of the black migrants in popular consciousness and intellectual discourse in the United States through the interrogation of actual members of this community *Problematizing Blackness* Percy C. Hintzen, Jean Muteba Rahier, 2003

Stigma and Culture J. Lorand Matory, 2015-12-02 *Stigma and Culture* by J Lorand Matory is a courageous auto ethnographic examination of the stigma attached to color The work is a major contribution to a new scholarly genre a form of anthropological theory building in memoir form Its varied gestures include paeans to past mentors rich recollections of childhood ethnographic analyses of various cultural institutions especially Howard University re conceptualizations of Caribbean African significances vis a vis African Americans in the United States and more Such a wide ranging effort is precisely what recommends this book and what makes it like few other books in Anthropology or Africana Studies Matory argues that several ironies highlight class based seemingly post racial social formations while also reinforcing racialization and challenging such racial logics from within He shows how educational institutions are spaces for the paradoxical production of both elitist post ethnic class identities and for the fostering of would be ethnic particularity and difference all at the same time Providing a nuanced window into variously situated Black groups in the United States including the seemingly exotic little races or tri racial isolates such as Louisiana Creoles and the oft discussed Gullah Geechee this book argues that the longstanding scholarly assumption about social isolation as a causal mechanism for the cultural legitimacy of such groups is absolutely wrong Instead Matory shows that all of these groups are quite decidedly produced in and through contact with their ostensible others Ethnic purities and particularities are the byproducts of anxieties and efforts birthed from the contact that such purities are meant to deny This is one of the book's most powerful interventions and Matory provides compelling arguments for how so many get this wrong Ultimately *Stigma and Culture* explains not just the continuing significance of race and ethnicity as seen in various American contexts but also makes the case for how new and old ethnic differences are enabled and produced in the contemporary moment

Reproducing Domination Percy C. Hintzen, Charisse Burden-Stelly, Aaron Kamugisha, 2022-11-29 *Reproducing Domination* On the Caribbean Postcolonial State collects thirteen key essays on the Caribbean by Percy C Hintzen the foremost political sociologist in Anglophone Caribbean studies For the past forty years Hintzen has been one of the most articulate and discerning critics of the postcolonial state in Caribbean scholarship making seminal contributions to the study of Caribbean politics sociology political economy and diaspora studies His work on the postcolonial elites in the region first given full articulation in his book *The Costs of Regime Survival Racial Mobilization Elite Domination and Control of the State in Guyana and Trinidad* is unparalleled *Reproducing Domination* contains some of Hintzen's most important Caribbean essays over a twenty five year period from 1995 to the present These works have broadened and deepened his earlier work in *The Costs of Regime Survival* to encompass the entire Anglophone

Caribbean interrogated the formation and consolidation of the postcolonial Anglophone Caribbean state and theorized the role of race and ethnicity in Anglophone Caribbean politics Given the recent global resurgence of interest in elite ownership patterns and their relationship to power and governance Hintzen's work assumes even more resonance beyond the shores of the Caribbean This groundbreaking volume serves as an important guide for those concerned with tracing the consolidation of power in the new elite that emerged following flag independence in the 1960s

Transnational Black Feminism and Qualitative Research Tanja J. Burkhard, 2021-11-16 Transnational Black Feminism and Qualitative Research invites readers to consider what it means to conduct research within their own communities by interrogating local and global contexts of colonialism race and migration The qualitative data at the centre of this book stem from a yearlong qualitative study of the lived experiences of Black women who migrated to or spent a significant amount of time in the United States as well as from the author's experiences as a Black German woman and former international student It proposes Transnational Black Feminism as a framework in qualitative inquiry Methodological considerations emerging from and complementary to this framework critically explore qualitative concepts such as reciprocity care and the ethics with which research is conducted to account for shifts in power dynamics in the research process and to radically work against the dehumanization of participants their communities and researchers This short and accessible book is ideal for qualitative researchers graduate students and feminist scholars interested in the various dimensions of racialization coloniality language and migration

A Trace for the Next Generation Chike McLoyd, 2021-11-10 This study based on 18 months of ethnographic research in a high school E L L classroom explores how transnational Black youth navigate racism justice and education It advocates for a lessons against white supremacies framework in critical pedagogy centering counter narratives and decolonial love to transform classroom praxis

Relational Formations of Race Natalia Molina, Daniel Martinez HoSang, Ramón A. Gutiérrez, 2019-02-05 Relational Formations of Race brings African American Chicana Latinx Asian American and Native American studies together in a single volume enabling readers to consider the racialization and formation of subordinated groups in relation to one another These essays conceptualize racialization as a dynamic and interactive process group based racial constructions are formed not only in relation to whiteness but also in relation to other devalued and marginalized groups The chapters offer explicit guides to understanding race as relational across all disciplines time periods regions and social groups By studying race relationally and through a shared context of meaning and power students will draw connections among subordinated groups and will better comprehend the logic that underpins the forms of inclusion and dispossession such groups face As the United States shifts toward a minority majority nation Relational Formations of Race offers crucial tools for understanding today's shifting race dynamics
