**Problems of Philosophy** Mary Whiton Calkins, 2015-06-11 Excerpt from The Persistent Problems of Philosophy An Introduction to Metaphysics Through the Study of Modern Systems I must admit at the outset that this book is not written to lure students guiltless of metaphysical aspirations into pleasant paths of philosophical speculations It is intended rather for students and readers who are seriously concerned with the problems of philosophy and genuinely anxious to study metaphysics under the guidance of the great thinkers The book is none the less designed for beginners in philosophy as well as for those more advanced and I have tried to make it clear in statement and logical in order I have audaciously attempted to combine also what seem to me the essential features of a systematic Introduction to Metaphysics with those of a History of Modern Philosophy This I have done both because I believe that the problems of philosophy are at the outset best studied as formulated in the actual systems of great thinkers and because the historical sequence of philosophies from Descartes s to Hegel s seems to coincide roughly with a logical order I am well aware that in writing a book which seeks to combine two functions often distinguished and which attempts to meet the needs of two groups of students I have run the risk of fulfilling neither purpose and of helping neither set of readers I hope however that certain features of the book may prove useful in particular the plan on which it classifies metaphysical systems the summaries it offers as well of the arguments as of the conclusions of modern philosophers the exact quotations and multiplied text references of its expositions If I have overloaded the book with quotations and references it is because I have myself suffered greatly from my inability to find in the writings of the philosophers the doctrines attributed to them by the commentators About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections

**The Problems of Philosophy** Bertrand Russell, 2019-08-22 The Problems of Philosophy one of the most popular works in Russell's prolific collection of writings has become core reading in philosophy Clear and accessible this little book is an intelligible and stimulating guide to those problems of philosophy which often mistakenly lead to its status as too lofty and abstruse for the lay mind Focusing on problems he believes will provoke positive and constructive discussion Russell concentrates on knowledge rather than metaphysics steering the reader through his famous 1910 distinction between knowledge by acquaintance and knowledge by description and introducing important theories of Descartes Kant Hegel Hume Locke Plato and others to lay the foundation for philosophical inquiry by general readers and scholars alike With a new introduction by John Perry this valuable work is a perfect introduction to the field and will continue to stimulate philosophical discussion as it has done for nearly forty years

*Some Problems of Philosophy* William James, 2015-06-02 Excerpt from Some Problems of Philosophy A Beginning of an Introduction to Philosophy For several years before his death Professor William James cherished the purpose of stating his views on certain problems of metaphysics in a book addressed particularly to readers of philosophy He began the actual writing of this introductory text book for students in metaphysics as he once called it in March 1909 and to complete it was at last his dearest ambition But illness and other demands on his diminished strength continued to interfere and what is now published is all that he had succeeded in writing when he died in August 1910 Two typewritten copies of his unfinished manuscript were found They had been corrected separately A comparison of the independent alterations in the two copies showed few and slight differences of phrase and detail and indicated no formed intention to make substantial changes yet the author perhaps expected to make some further alterations in a final revision if he could finish the book for in a memorandum dated July 26 1910 in which he directed the publication of the manuscript he wrote Say it is fragmentary and unrevised About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
