Shrinking Man:

Incredible Shrinking Man Richard Matheson,2001-02-01 *The Shrinking Man* Richard Matheson,2011-05-15 The legendary novel of science fiction horror The author who influenced me the most as a writer was Richard Matheson Stephen King After he is exposed to a radioactive cloud Scott Carey finds himself shrinking slowly day by day inch by inch Scott once had a normal everyday existence as a husband and father but as time passes he becomes a national spectacle something worthy of newspaper headlines As Carey shrinks smaller and smaller his family become giants more and more unreachable and even the family cat becomes a predatory menace In this world of disproportion increasingly perilous with each passing day Scott struggles to survive and is pushed to the very limits of fear and existence Adapted into the Hugo Award winning film *The Incredible Shrinking Man* this is a classic by the author of *I Am Legend* and other renowned works a master of imagination whom Ray Bradbury called one of the most important writers of the twentieth century A classic of suspense as poignant as it is frightening a mix that only Richard Matheson could pull off Dean Koontz **The Shrinking Man (Richard Matheson's the Shrinking Man)** Richard Matheson,Ted Adams,2016-02-09 And you thought spiders were scary before This faithful comic book adaptation brings Richard Matheson s masterful exploration of withering 1950s masculinity to vivid new life Following a freak accident family man Scott Carey must confront the increasingly or is it decreasingly obvious reality that he is shrinking at a rate of 1 7 inch per day And this fall in stature is not merely physical but social as well He finds himself dropping in standing first past the neighborhood teens then his wife his young daughter his cat the birds in the garden and finally that spider The one you ll never see the same way again Along the way he confronts questions about what it means to be a man to be human or to exist at all Collects the four issue comic book series adapted from Matheson s science fiction classic by Ted Adams Diablo House with art by Mark Torres Judge Dredd The Incredible Shrinking Man Richard Matheson,2001-02-24 A collection of writings by Richard Matheson including the novel *The Incredible Shrinking Man*

Invasions USA Michael Bliss,2014-07-30 Out of more than 180 science fiction films produced in the United States between 1950 and 1959 twenty were concerned with the notion of an invasion Of these a select number used the invasions as metaphors of issues that were of importance to America at the time such as assaults upon individuality and marriage and debates about the supremacy of the human race The invasion may be real *The Day the Earth Stood Still* and *War of the Worlds* dreamed *Invaders from Mars* or the result of a mental breakdown as seems to be the case in *Invasion of the Body Snatchers* Real or not all of these massive disturbances to the status quo convey the same anxiety In the 1950s many Americans felt that things in their world weren t quite right and this sense of unease was expressed in the country s art notably these films In *Invasions USA The Essential Science Fiction Films of the 1950s* Michael Bliss examines movies that stripped away the veneer of normality during a decade often portrayed as the last innocent period in American history From a boy s nightmares about his alien controlled parents and a young woman s fears that her fianc has been replaced by an

emotionless alien to an extraterrestrial visitor who comes to warn mankind about its self destructive ways the stories of these films offer a variety of messages both subtle and overt With detailed discussions and analyses of the films in question this book examines a unique group of movies with profound messages By exploring depictions of insecurities whether personal or political Bliss shows how science fiction films spoke to American audiences deeply troubled by their circumstances Invasions USA will appeal to science fiction buffs and film aficionados interested in this significant phenomenon in movie and cultural history

Technology and Postmodern Subjectivity in Don DeLillo's Novels Randy Laist,2010 More than any other major American author Don DeLillo has examined the manner in which contemporary American consciousness has been shaped by the historically unique incursion into daily life of information military and consumer technologies In DeLillo s fictions technological apparatuses are not merely set pieces in the characters environments nor merely tools to move the plot along they are sites of mystery and magic whirlpools of space time and convex mirrors of identity Television sets filmic images automobiles airplanes telephones computers and nuclear bombs are

not simply objects in the world for DeLillo's characters they are psychological phenomena that shape the possibilities for action influence the nature of perception and incorporate themselves into the fabric of memory and identity DeLillo is a phenomenologist of the contemporary technoscape and an ecologist of our new kind of natural habitat Through a close reading of four DeLillo novels *Technology and Postmodern Subjectivity in Don DeLillo's Novels* examines the variety of modes in which DeLillo's fictions illustrate the technologically mediated confluence of his human subjects and the field of cultural objects in which they discover themselves The model of interactionism between human beings and technological instruments that is implicit in DeLillo's writing suggests significant applications both to the study of other contemporary novelists as well as to contemporary cultural studies
