Making Of Canadian Food Aid Policy:

Making of Canadian Food Aid Policy Mark W. Charlton, 1992-10-23 Since the Colombo Plan in the early 1950s food aid has been an important and highly visible component of the Canadian development assistance program. Until the early 1970s however the Canadian food aid program was little more than a loosely connected collection of disparate programs designed to meet a host of sometimes conflicting objectives. In the wake of the world food crisis of 1972-75 a growing number of groups began to question the developmental effectiveness of food aid. In response the Canadian government undertook an extensive review and assessment of its food aid program which resulted in a series of new policy initiatives designed to change both the substance of food aid programs and the manner in which they were administered. These changes marked a watershed in the history of the Canadian food aid program setting out the fundamental policy themes that have been consolidated and refined in the 1980s and early 1990s. *Canadian International Development Assistance Policies* Cranford Pratt, 1996 For 25 years Canadians have argued whether the Canadian International Development Agency is the primary vehicle for helping basic human and development needs of the poorest countries and people or a tool for commercial exploitation and foreign policy. Contributors from the government, development organizations and academia analyze the components of Canadian aid, the issues the agency has to deal with and the pressures it responds to. The Making of Canadian Food Aid Policy Mark William Charlton, 1992 Charlton provides insight into the overall objectives and priorities of Canadian foreign policy in the developing world. He also reveals the impact of domestic economic interests, Canadian political culture, bureaucratic politics and the global food aid regime on the evolution of Canadian food aid policies. Annotation copyright by Book News Inc, Portland, OR. *Uniting on Food Assistance* Christopher Barrett, Julia Steets, 2011-12-20 This book chronicles the most essential causes and implications of these trends which have expanded international food assistance well beyond the simple shipment of donated food aid commodities. We pay particular attention to how these trends shape and are shaped by European Union (EU) and United States (US) food assistance policy and practice and highlight the principles to which donors can adhere to move international food assistance forward.

Canada Among Nations, 2009-2010 Fen Hampson, Fen Osler Hampson, Paul Heinbecker, Norman Paterson School of International Affairs, 2010 Marking the 25th anniversary of the series *Canada Among Nations* 2009 focuses on how leading foreign and Canadian thinkers and doers assess Canada's prospects in a world in which the US will become more pre-eminent and predominant. The rise of China, India, Russia and Brazil as well as the increased significance of Europe and the further development of Africa are all transforming the context in which Canadians live. Given the change in the tone, style and substance of American foreign policy and the need to deal with unprecedented international financial problems and global economic retreat, the topic of this volume is especially timely. Canada will need to formulate sound policies on key issues such as energy and environmental sustainability, nuclear nonproliferation, human rights and trade and investment in key areas.

such as Afghanistan and the Middle East Astute bilateral diplomacy and constructive engagement in multilateral forums such as the United Nations and the G20 will be crucial to Canada s success Contributors to this volume critique Canada s performance on the world stage offering advice on initiatives Canada can take in its own and in the common interest
