

MAKING THE POLITICS OF
PROTECTING THE EARTH
ENVIRONMENTAL LAW

NANCY E. MARION

Making Of Environmental Law

Philip Weinberg, Kevin Reilly

Making Of Environmental Law:

The Making of Environmental Law Richard J. Lazarus, 2008-09-15 The unprecedented expansion in environmental regulation over the past thirty years at all levels of government signifies a transformation of our nation's laws that is both palpable and encouraging. Environmental laws now affect almost everything we do from the cars we drive and the places we live to the air we breathe and the water we drink. But while enormous strides have been made since the 1970s, gaps in the coverage, implementation and enforcement of the existing laws still leave much work to be done. In *The Making of Environmental Law*, Richard J. Lazarus offers a new interpretation of the past three decades of this area of the law, examining the legal, political, cultural and scientific factors that have shaped and sometimes hindered the creation of pollution controls and natural resource management laws. He argues that in the future, environmental law must forge a more nuanced understanding of the uncertainties and trade-offs, as well as the better organized political opposition that currently dominates the federal government. Lazarus is especially well equipped to tell this story given his active involvement in many of the most significant moments in the history of environmental law as a litigator for the Justice Department's Environment and Natural Resources Division, an assistant to the Solicitor General, and a member of advisory boards of the U.S. Environmental Protection Agency, the World Wildlife Fund, and the Environmental Defense Fund. Ranging widely in his analysis, Lazarus not only explains why modern environmental law emerged when it did and how it has evolved, but also points to the ambiguities in our current situation. As the field of environmental law grays with middle age, Lazarus's discussions of its history, the lessons learned from past legal reforms, and the challenges facing future lawmakers are both timely and invigorating.

Time and Environmental Law Benjamin J. Richardson, 2017-08-03 Through the lens of time, the book critiques environmental law and recommends ways to enable it to respond to nature's time scales. **Environmental Law** Elizabeth Fisher, Bettina Lange, Eloise Scotford, 2019 *Environmental Law: Text, Cases, and Materials* offers a comprehensive, critical, and case-focused approach to the subject, combining insightful author commentary with carefully selected extracts to fully support students. *Environmental Law* Stuart Bell, Donald McGillivray, Ole W. Pedersen, Emma Lees, Elen Stokes, 2017 This edition of *Environmental Law* includes material on environmentalism and the law, international environmental law, access to environmental justice, noise pollution, and new legislation on pollution prevention and new case law. **Making Environmental Law** Nancy E. Marion, 2011-08-10 From Eisenhower to Obama, this book provides a comprehensive analysis of the policies Congress and the president have proposed and passed to protect the environment over time. The U.S. federal government first began to consider legislation to protect the environment and natural resources in the 1940s. Since that time, Congress and the president have considered and passed numerous environmental policies, laws that serve to protect the quality of the air we breathe, the water we drink, the natural beauty of the land, and the animals that live both on land and in the water. In *Making Environmental Law: The Politics of Protecting the Earth*, experienced and accomplished environmental

law researcher Nancy E Marion shows what policies Congress have proposed and passed to protect the environment over time Each chapter focuses on the members of Congress s response to a different environmental concern such as ocean dumping pesticides and solid waste With green awareness now affecting every aspect of our modern world this text serves as an invaluable reference for students and researchers who need a deeper historical background on the political aspects of these issues

Making Environmental Laws Work William Wilson,1999-01-19 The book considers the political context in which environmental laws are made and the implications for long term public support of them

Environmental Law and Justice in Context Jonas Ebbesson,Phoebe N. Okowa,2009-02-19 political science and international relations Book Jacket

Towards a "second Generation" in Environmental Laws in the Asian and Pacific Region Lin Heng Lye,Maria Socorro Z. Manguiat,2003 Laws in the twentieth century were based on economic growth and development This new century calls for the reassessment of all laws from an environmental perspective in consideration of such looming environmental concerns as global warming degradation of biodiversity and pollution This book captures some provoking thoughts raised during a symposium on second generation environmental laws held in Japan in 2002 The wide range of articles will promote greater understanding of what has been achieved with the first generation of environmental laws what is needed for the second generation and how to bridge the two

Materials on Environmental Law John-Mark Stensvaag,1999 This text contain cases readings law review excerpts and the latest developments all to help you think like an environmental lawyer

Law in Environmental Decision-making Tim Jewell,Jenny Steele,1998 This collection of essays adopts a distinctive approach to environmental legal issues representing a variety of specializations ranging from public law to international law

Environmental Law for Sustainability Benjamin J Richardson,2006-03 This book presents critical new scholarship on the state of law for sustainable development from an international and comparative perspective

Science-Based Lawmaking

Dionysia-Theodora Avgerinopoulou,2019-08-31 The Book takes the approach of a critique of the prevailing international environmental law making processes and their systemic shortcomings It aims to partly redesign the current international environmental law making system in order to promote further legislation and more effectively protect the natural environment and public health Through case studies and doctrinal analyses an array of initial questions guides the reader through a variety of factors influencing the development of International Environmental Law After a historical analysis commencing from the Platonic philosophy up to present the Book holds that some of the most decisive factors that could create an optimized law making framework include among others progressive voting processes science based secondary international environmental legislation new procedural rules that enhance the participation in the law making process by both experts and the public and also review the implementation compliance and validity of the science base of the laws The international community should develop new law making procedures that include expert opinion Current scientific uncertainties can be resolved either by policy choices or by referring to the so called sound science In formulating a new

framework for environmental lawmaking processes it is essential to re shape the rules of procedure so that experts have greater participation in those in order to improve the quality of International Environmental Law faster than the traditional processes that mainly embrace political priorities generated by the States Science serves as one of the main tools that will create the next generation of International Environmental Law and help the world transition to a smart inclusive sustainable future

Virginia Environmental Law Journal ,2008 *EU Environmental Law* Maria Lee,2005-04-21 Contemporary environmental regulation is having to adapt to significant challenges These challenges come from all directions including the quest for economic efficiency popular mistrust of experts and frequent observation of poor practical results At EU level criticisms of regulatory activity are accentuated by the significant questions that surround the legitimacy of certain EU institutions and processes EU Environmental Law examines a range of substantive EU environmental laws and policies and considers far reaching endeavors to improve environmental regulation

Decision Making in Environmental Law LeRoy Paddock,Robert L. Glicksman,Nicholas S. Bryner,2016 Environmental issues are at the heart of some of the most complex and consequential decisions that society must face in pursuit of a more sustainable future They encompass the international national and local levels and engage all branches of government Decision Making in Environmental Law one of the constituent volumes in the Elgar Encyclopedia of Environmental Law brings together some of the leading experts in the field and provides a structured overview of the various dimensions of decision making from an environmental law perspective Topics include the use of treaties common law tools rulemaking access to information regulatory structures market based and trading mechanisms monitoring and reporting voluntary programs and private regulation environmental impact analysis public engagement and environmental justice administrative and judicial review and the role of environmental courts and tribunals

William and Mary Environmental Law and Policy Review ,2000 **Principles of International Environmental Law** Philippe Sands,Richard Tarasofsky,Mary Weiss,1997 **New York University Environmental Law Journal** ,1996 **Understanding Environmental Law** Philip Weinberg,Kevin Reilly,1998 **Environmental Law Newsletter** ,1977
