Obra Selecta:

Obra Selecta, Etc. [With Plates.]. José María TOUS Y. MAROTO, 1950 *A History of Chilean Literature* Ignacio López-Calvo, 2021-10-14 This book covers the heterogeneity of Chilean literary production from the times of the Spanish conquest to the present. It shifts critical focus from national identity and issues to a more multifaceted transnational hemispheric and global approach. Its emphasis is on the paradigm transition from the purportedly homogeneous to the heterogeneous.

Stages of Desire Michael Kidd, 1999-07-01 Within the rich tradition of Spanish theater lies an unexplored dimension reflecting themes from classical mythology. Through close readings of selected plays from early modern and twentieth century Spanish literature with plots or characters derived from the Greco Roman tradition, Michael Kidd shows that the concept of desire plays a pivotal role in adapting myth to the stage in each of several historical periods. In *Stages of Desire*, Kidd offers a new way of looking at the theater in Spain. Reviewing the work of playwrights from Juan del Encina to Luis Riaza, he suggests that desire constitutes a central element in a large number of Greco Roman myths and shows how dramatists have exploited this to resituate ancient narratives within their own artistic and ideological horizons. Among the works he analyzes are Timoneda's *Tragicomedia llamada Filomena*, Castro's *Dido y Eneas* and Unamuno's *Fedra*. Kidd explores how seventeenth century playwrights were constrained by the conventions of the newly formed national theater and how in the twentieth century mythological desire was exploited by playwrights engaged in upsetting the melodramatic conventions of the entrenched bourgeois theater. He also examines the role of desire both in the demythification of prominent classical heroes during the Franco regime and in the cultural critique of institutionalized discrimination in the current democratic period. *Stages of Desire* is an original and broad ranging study that highlights both change and continuity in Spanish theater. By elegantly combining theory, literary history and close textual analysis, Kidd demonstrates both the resilience of Greco Roman myths and the continuing vitality of the Spanish stage.

Borges and Kafka, Bolaño and Bloom Juan E. De Castro, 2022-02-15 At a time in which many in the United States see Spanish America as a distinct and for some threatening culture clearly differentiated from that of Europe and the US, it may be of use to look at the works of some of the most representative and celebrated writers from the region to see how they imagined their relationship to Western culture and literature. In fact, while authors across stylistic and political divides like Gabriela Mistral, Jorge Luis Borges or Gabriel García Márquez see their work as being framed within the confines of a globalized Western literary tradition, their relationship rather than epigonal is often subversive. *Borges and Kafka, Bolaño and Bloom* is a parsing not simply of these authors' reactions to a canon but of the notion of canon writ large and the inequities and erasures therein. It concludes with a look at the testimonial and autobiographical writings of Rigoberta Menchú and Lurgio Gavilán who arguably represent the trajectory of Indigenous testimonial and autobiographical writing during the last forty years, noting how their texts represent alternative ways of relating to national and on occasion Western cultures. This study is a new attempt to map writers' diverse

ways of thinking about locality and universality from within and without what is known as the canon Aproximació a l'altre / An approach to the other Enric Balaguer, Maria Jesús Francés, Vicent Vidal, 2015-12-15 The different contributions included in this volume deal with aspects of biographical writing and other similar genres semblances portraits etc These articles analyze theoretical and generic questions as well as some of the most relevant examples of the genre with a focus on those written in Catalan In addition some of the articles focus on the relationship between biography and national images nation building from a sociocultural standpoint The Research Group on Contemporary Literature from the Universitat d Alacant has gathered contributions from several specialists in numerous fields and has selected a group of relevant works for analysis In addition to studies on authors such as Andr Maurois and Lytton Strachey contributions deal with figures such as Josep Pla Dom nec Guans Josep Maria Espin s and Agust Pons Finally some contributions pay attention to the biographical genre in the audiovisual arts The volume contains contributions in Spanish English and Catalan **The Cultural Politics of Blood, 1500-1900** Kimberly Anne Coles, Ralph Bauer, Zita Nunes, Carla L. Peterson, 2015-01-26 The essays of this collection explore how ideas about blood in science and literature have supported at various points in history and in various places in the circum Atlantic world fantasies of human embodiment and human difference that serve to naturalize existing hierarchies
