How I escaped dialysis ... Dieter Reinecker, 2016-01-08 At the age of 57 years the author was diagnosed with terminal chronic renal insufficiency. He had to decide kidney transplant or dialysis. The author decided against both. He investigated the causes and interrelations between the disease and his life. Which way he went and how he went, it does not describe dryly scientifically and matter of factly but in a lively, humorous, exciting and thrilling way as in a novel so that everyone can understand what it means to work yourself out of the deepest crisis of your life, that it is worthwhile to fight, that you can change habits, that you can change your life, and how important it is to have the right woman by your side. Incidentally, the reader does not only learn basic knowledge about kidneys and nutrition but also a unique view on life itself. *The Western Subprovince of the Lachlan Fold Belt, Victoria* David A. **Maps & Minds**, 1984 Six Peaks Speak Barry Golding, Clive Willman, 2024-11-01 Mountains can tell us much about our past. Six iconic peaks in Central Victoria, Australia: Mounts Kooroocheang, Beckworth, Greenock, Tarrengower, Alexander, and Franklin tower above the rich volcanic grasslands. Each has borne witness to dramatic changes in Dja Dja Wurrung Country over the past two centuries. *Six Peaks Speak* tells the unique stories and continuing legacies of these mountains from a multidisciplinary perspective. Created as part of Professor Barry Golding's State Library Victoria Creative Fellowship in 2023, it accesses seldom-visited archives, turning the idea of settling on its head instead using unsettling as its key organising principle. The book threads together insights and evidence from diverse historic sources including First Nations, geological, ecological, community, and reserve management. The peak-specific stories illustrate how many taken-for-granted aspects of mountains may not be as they seem. This timely book raises questions about the extent to which mountain peaks and their surrounding reserves have been managed in the public interest. In the process, it seeks to answer the broader question: How can we help future generations deal with the unsettling legacies of what has happened to mountains? It makes reference in its conclusion to the origins of International Mountain Day in the US in the same era as these peaks were being unsettled in Australia in 1838. Aside from what it reveals about the six peaks, the book showcases ideas and methodologies for creatively reconnecting with and healing other mountains and the people who today live on their flanks and on Country in between.
