Makers of Modern History; Three Types, Louis Napoleon, Cavour, Bismarck Edward Cecil George Cadogan,2013-09 This historic book may have numerous typos and missing text Purchasers can usually download a free scanned copy of the original book without typos from the publisher Not indexed Not illustrated 1905 edition Excerpt BISMARCK It has always been held inexpedient to discuss the actions or to estimate the greatness of any man who has attained to a conspicuous place in the service of his country until a sufficient interval has elapsed after his death both in virtue of the fact that the time may not yet have come when the rash and indiscriminate judgments which contemporaries are wont to pass on his actions can be calmly reviewed in the light of subsequent history and that a large amount of evidence which may be essential to a judicious estimation of his character it will be imperative to omit His biographers accordingly find themselves glossing over many of his conspicuous faults out of due consideration to his colleagues and relatives who may still be living or making light of his virtues to suit the antagonistic opinions of his contemporary opponents Thus we find that until his generation has passed away it is only possible to arrive at a compromise of the truth But this generalisation seems not to be applicable in the case of Bismarck No decent interval has been allowed to elapse after his death before the publication of a large mass of private correspondence and documents having immediate bearing upon his character and his achievements Bismarck in conversation one day with Busch his biographer said When once I am dead you can tell everything you like absolutely everything you know As a statesman and as

a diplomatist his character has consequently been made so plain to us that there is very little to wait for before giving our final judgments Almost every word from his lips or his pen found its way to publicity either during his lifetime or soon after his death It is not probable that the present generation or any other that

Authoritative and convincing. *New York Times Book Review*. The classic reference on the theory and practice of war. The essays in this volume analyze war, its strategic characteristics, and its political and social functions over the past five centuries. The diversity of its themes and the broad perspectives applied to them make the book a work of general history as much as a history of the theory and practice of war from the Renaissance to the present. *Makers of Modern Strategy from Machiavelli to the Nuclear Age* takes the first part of its title from an earlier collection of essays that became a classic of historical scholarship. Three essays are reprinted from the earlier book, while four others have been extensively revised. The rest, twenty-two essays, are new. The subjects addressed range from major theorists and political and military leaders to impersonal forces. Machiavelli, Clausewitz, and Marx and Engels are discussed, as are Napoleon, Churchill, and Mao. Other essays trace the interaction of theory and experience over generations, the evolution of American strategy, for instance, or the emergence of revolutionary war in the modern world. Still others analyze the strategy of particular conflicts, the First and Second World Wars, or the relationship between technology, policy, and war in the nuclear age. Whatever its theme, each essay places the specifics of military thought and action in their political, social, and economic environment. Together, the contributors have produced a book that reinterprets and illuminates war, one of the most powerful forces in history, and one

that cannot be controlled in the future without an understanding of its past
