**Making Art Together** Mark Cooper, Lisa Sjoström, 2007-08-01 Artist Mark Cooper aims to change the way you think about making art with kids Working with schools around the country Cooper has brought together scores of teachers and hundreds of children to make remarkable collaborative art that has enlivened classrooms and public spaces and been displayed in the nation's most prestigious museums In this inspiring practical idea filled book Cooper shows how any teacher not just art teachers can imagine and execute similar projects in their own classrooms But more than that Cooper transforms our sense of possibilities arguing for a new view of art in schools Making Art Together is a book about art education structured around big ideas that adults can flourish in the role of Master Artist that the perspective of contemporary art offers liberating possibilities for rethinking art in schools that art can and should be about the larger world and thus naturally ties in to all areas of the curriculum Most of all Cooper shows us the power of collaboration From mammoth freestanding sculptures to billboards against violence to maps of the world the projects here are all planned designed and completed by children themselves The resulting artwork is complex and ambitious on a scale that would be out of reach for any individual child Working collaboratively using a distinctly democratic model kids actually think and work like adult artists throughout every stage of the project Together the sky's the limit the artistic and educational opportunities are boundless Making Art Together is a bold beautifully illustrated book that could at a time when art budgets are being slashed revitalize our sense of what art in schools can accomplish

*Beyond Art*  
Dominic McIver Lopes,2014-01-30 Dominic McIver Lopes articulates and defends a buck passing theory of art namely that a work of art is nothing but a work in one of the arts Having traced philosophical interest in theories of art to a reaction to

certain puzzle cases of avant garde art he argues that none of the theories that have dominated philosophy since the 1960s adequately copes with these works Whereas these theories have reached a dialectical impasse wherein they reiterate and cannot resolve disagreement over the puzzle cases the buck passing theory illuminates the radical provocations of avant garde art In addition when supplemented by a systematic framework for crafting theories of the individual arts the buck passing theory grounds our empirical inquiries into the arts as well as our practices of appreciation and art criticism Lopes seeks to model the diverse strategies employed by humanists and social and behavioural scientists who study the different arts He gives the specificity of each art form a central role in our appreciative endeavours and yet he stresses the continuity of the arts with similar non art activities such as fashion design sports and games cuisine nature appreciation and non literary writing
