

THE MAKING OF A CONSERVATIVE ENVIRONMENTALIST

"GORDON K. DURNIL IS ONE OF THE LEADING
SOURCES OF ENVIRONMENTAL POLICY OPINION OF
THE 1990s."

Making Of A Conservative Environmentalist:

The Making of a Conservative Environmentalist Gordon K. Durnil, 2001-11-09 Durnil's attack on chlorine is one of the single boldest environmental policy ideas of the 1990s. The message is that if someone as conventional and as conservative as Mr. Durnil can latch on to one of the great social transformations of the American century then so can every other Republican in the country. *New York Times Book Review* This is a serious thoughtful book. If they would read it the phoney conservatives now performing in the center ring in Congress might be shamed into mending their ways. *Village Voice Literary Supplement* Here comes a thoughtful experienced conservative with impeccable Republican credentials a dedicated environmentalist with a different point of view. A thoughtful readable mandate. Ken Bode Moderator Washington Week in Review

The Conservative Environmentalist Benji Backer, 2024-04-16 A young conservative environmentalist provides an intrepid vision for both solving our climate crisis and prioritizing the American national interest. Politicians pseudo experts and other partisans have led us to believe that there are only two approaches to climate change doomerism or denial. Benji Backer Founder and Executive Chairman of the American Conservation Coalition argues that both are dead ends. In *The Conservative Environmentalist* he delivers an entirely new strategy to take care of the planet while putting the economic interest of the American people first. Backer makes the compelling case that conservative principles are the key to climate solutions that actually work. In this book you'll visit the country's most diverse ecosystems and consequential manufacturing hubs from Utah coal mines and Texas oil fields to Louisiana wetlands and Rhode Island offshore wind farms witnessing the power of individual entrepreneurship and local problem solving. You'll be inspired by groundbreaking efforts to strengthen earth's ecosystems that Green New Dealers and other Big Government advocates would prefer to keep hidden like partnerships between oil and gas companies and environmental nonprofits to preserve thousands of acres of wetlands. Drawing on cutting edge science a deep understanding of local community needs and his experience rallying politicians on both sides of the aisle to take action Backer offers hope for everyone who cares about the state of the great outdoors. Fascinating clear headed and full of surprises *The Conservative Environmentalist* is the fresh audacious approach needed to ensure a sustainable future and particularly one that works for America.

A Conservative Environmentalist Thomas G. Smith, 2024-06-25 A wealthy textile titan from Carlisle Pennsylvania Frank Masland Jr was an ardent political conservative and an equally fervent conservationist who was well known and highly respected in the mid twentieth century environmental preservation community. This eye opening biography charts Masland's life work telling the story of how he and fellow Republicans worked with Democrats to expand the national park system preserve wild country and protect the environment. Though a conservative conservationist appears to be a contradiction in terms today this was not necessarily the case when Masland and his compatriots held sway. Conservatives Masland insisted had a duty to be good stewards of the earth for present and future generations and they worked closely with members of both parties in Congress and nonpolitical

conservation groups to produce landmark achievements When conservatives turned against environmentalism during the Reagan presidency Masland refused to join what historians have termed the Republican reversal During his long life of nearly a hundred years Masland used his voice influence experiences with nature and considerable wealth to champion environmental causes at the national state and local levels Engaging informative and at times eyebrow raising this portrait of a passionately anti statist nature loving Republican environmentalist documents the history of the twentieth century conservation movement and reminds us of a time when conservative Republicans could work with liberal Democrats to protect the environment
