The Fourth Ghost Robert H. Brinkmeyer, Jr., 2009-01-01 In the 1949 classic *Killers of the Dream*, Lillian Smith described three racial ghosts haunting the mind of the white South: the black woman with whom the white man often had sexual relations, the rejected child from a mixed-race coupling, and the black mammy whom the white southern child first loves but then must reject. In this groundbreaking work, Robert H. Brinkmeyer Jr. extends Smith's work by adding a fourth ghost lurking in the psyche of the white South: the specter of European Fascism. He explores how southern writers of the 1930s and 1940s responded to Fascism, and most tellingly to the suggestion that the racial politics of Nazi Germany had a special problematic relevance to the South and its segregated social system. As Brinkmeyer shows, nearly all white southern writers in these decades felt impelled to deal with this specter and with the implications for southern identity of the issues raised by Nazism and Fascism. Their responses varied widely, ranging from repression and denial to the repulsion of self-recognition. With penetrating insight, Brinkmeyer examines the work of writers who contemplated the connection between the authoritarianism and racial politics of Nazi Germany and southern culture. He shows how white southern writers, both those writing cultural criticism and those writing imaginative literature, turned to Fascist Europe for images, analogies, and metaphors for representing and understanding the conflict between traditional and modern cultures that they were witnessing in Dixie. Brinkmeyer considers the works of a wide range of authors of varying political stripes: the Nashville Agrarians, W. J. Cash, Lillian Smith, William Alexander Percy, Thomas Wolfe,

William Faulkner Katherine Anne Porter Carson McCullers Robert Penn Warren and Lillian Hellman He argues persuasively that by engaging in their works the vital contemporary debates about totalitarianism and democracy these writers reconfigured their understanding not only of the South but also of themselves as southerners and of the nature and significance of their art The magnum opus of a distinguished scholar The Fourth Ghost offers a stunning reassessment of the cultural and political orientation of southern literature by examining a major and heretofore unexplored influence on its development The Poetic Economists of England and Ireland 1912-2000 D. Johnston,2001-08-08 Although modern English and Irish poetry arises from the different cultures of the two countries these poets have shared throughout this century the same editors and publishers competed for the same prizes and been judged ostensibly by the same standards This book examines contexts for these exchanges over four decades tracing the lineages of Yeats and Hardy from their meeting in 1912 through WWI the 30s the 60s and the 90s to see what influences and ideas are exchanged and how poetic value accrues
