Progressivism At Risk:

Progressivism at Risk Francis L. Broderick, 1989-05-19 Broderick covers the ballyhoo and intrigue of the 1912 presidential campaign with remarkable evenhandedness and realism He views the race for the White House from the vantage points of the Wilson Roosevelt Taft and Debs camps and analyzes their strengths and weaknesses accordingly The book emphasizes the variety of choice offered to the progressive voter in 1912 Broderick makes his points with great clarity and persuasiveness as well as with detailed examples and anecdotes This book offers fresh insight into an oft covered campaign year Choice The presidential election of 1912 was critical in American history defining not only the Progressive Era but setting domestic political standards that remained implicitly or explicitly influential until the second Nixon administration The election campaign dealt with the central issue of Progressivism How could the United States develop a strategy for orderly social change in a new economic order created by large scale industrial capitalism However in the face of an acknowledged need for reform there was little agreement on what reforms were desirable Broderick provides an in depth picture of the personalities and issues involved in this crucial election He shows how the four presidential candidates Roosevelt Taft Debs and Wilson sought votes for their solutions In addition to battling each other the author contends the candidates struggled for dominance within their own parties Broderick also considers the influence of Elihu Root Robert M La Follette William Jennings Bryan Charles Murphy Champ Clark and a dozen other political leaders who left their mark on the drama of the campaign of 1912 In conclusion he demonstrates how while Wilson won the office Roosevelt won the debate and shaped the future This history of an election unique in American politics will be welcomed by political scientists historians and the general reader

[Progressivism at Risk](#) Francis L. Elihu Root Robert M La Follette William Jennings Bryan Charles Murphy Champ Clark and a dozen other political leaders who left their mark on the drama of the campaign of 1912 In conclusion he demonstrates how while Wilson won the office Roosevelt won the debate and shaped the future This history of an election unique in American politics will be welcomed by political scientists historians and the general reader Running against the Grain David A. Crockett,2009-03-01 Some presidents enter office with an uphill climb in front of them their political party represents a different governing philosophy than the dominant strain of the day These David A Crockett says are opposition presidents If they are in a sense out of step with their times how do they ever get elected in the first place In Running against the Grain How Opposition Presidents Win the White House Crockett employs historical comparisons to draw conclusions about what it takes for these candidates to win the office He focuses on seven presidents in twelve elections William Henry Harrison 1840 and Zachary Taylor 1848 Grover Cleveland 1884 and 1892 and Woodrow Wilson 1912 and 1916 Dwight Eisenhower 1952 and 1956 and Richard Nixon 1968 and 1972 and Bill Clinton 1992 and 1996 Crockett draws on the work of Stephen Skowronek and others in the tradition of American political development to establish the periodization for his study Through a comparative analysis of victorious opposition candidates Crockett finds explanations that transcend specific campaigns or even specific eras He contends that because the way one acquires the office may have an effect on the practice of leadership in the office running against the grain has implications far beyond Election Day **Four Hats in the Ring** Lewis L. Gould,2008 A leading political historian explains the enduring significance of the dynamic 1912 election featuring four candidates three with previous White House experience and one a future prison inmate as they dealt with pressing issues such as free trade the political role of women and a socialist movement at its apex **Woodrow Wilson and the Lost World of the Oratorical Statesman** Robert Alexander Kraig,1999 **Progressivism and the World of Reform** Peter J. Coleman,1987 In this major reinterpretation of the Progressive era Peter Coleman argues that the American welfare state had its origins in what he calls the world wide crisis of capitalism Here and abroad reformers no longer content to treat the symptoms of distress sought to achieve social political and economic justice by abandoning laissez faire in favor of governmental intervention This study thoroughly documents the external forces that shaped the American Progressive movement and shows that the reformers agenda for change drew heavily on foreign ideas and models as well as the American reform tradition Tracing the international cross currents of reform ideas Coleman demonstrates that for nearly three decades American reformers of every stripe regarded the Australasian colonies especially New Zealand as examples of what the United States could become Thus inspired American reformers worked for such goals as wage and hour legislation for women abolition of child labor workmen s compensation laws compulsory arbitration of labor disputes land reform cheap loans for farmers old age pensions and infant and maternal care programs Through these and other measures that touched all aspects of the nation s life the role of government was enlarged By placing progressivism within an international context Coleman deepens our understanding of a

phenomenon previously seen as distinctively American thereby clarifying both the substance and process of change in this country He also argues that in the Progressive era can be seen the origins of the regulations and mixed economy of the modern welfare state

Encyclopedia of Third Parties in America Immanuel Ness, James Ciment, 2000 Intended to be an accessible yet comprehensive resource for readers seeking information about all major and most minor third political parties or candidates in American history as well as major independent canadacies Introduction **Making All the Difference** Martha Minow, 2016-10-01 Should a court order medical treatment for a severely disabled newborn in the face of the parents refusal to authorize it How does the law apply to a neighborhood that objects to a group home for developmentally disabled people Does equality mean treating everyone the same even if such treatment affects some people adversely Does a state requirement of employee maternity leave serve or violate the commitment to gender equality Martha Minow takes a hard look at the way our legal system functions in dealing with people on the basis of race gender age ethnicity religion and disability Minow confronts a variety of dilemmas of difference resulting from contradictory legal strategies strategies that attempt to correct inequalities by sometimes recognizing and sometimes ignoring differences Exploring the historical sources of ideas about difference she offers challenging alternative ways of conceiving of traits that legal and social institutions have come to regard as different She argues in effect for a constructed jurisprudence based on the ability to recognize and work with perceptible forms of difference Minow is passionately interested in the people different people whose lives are regularly mis shaped and mis directed by the legal system s ways of handling them Drawing on literary and feminist theories and the insights of anthropology and social history she identifies the unstated assumptions that tend to regenerate discrimination through the very reforms that are supposed to eliminate it Education for handicapped children conflicts between job and family responsibilities bilingual education Native American land claims these are among the concrete problems she discusses from a fresh angle of vision Minow firmly rejects the prevailing conception of the self that she believes underlies legal doctrine a self seen as either separate and autonomous or else disabled and incompetent in some way In contrast she regards

the self as being realized through connection capable of shaping an identity only in relationship to other people She shifts the focus for problem solving from the different person to the relationships that construct that difference and she proposes an analysis that can turn difference from a basis of stigma and a rationale for unequal treatment into a point of human connection The meanings of many differences can change when people locate and revise their relationships to difference she asserts The student in a wheelchair becomes less different when the building designed without him in mind is altered to permit his access Her book evaluates contemporary legal theories and reformulates legal rights for women children persons with disabilities and others historically identified as different Here is a powerful voice for change speaking to issues that permeate our daily lives and form a central part of the work of law By illuminating the many ways in which people differ from one another this book shows how lawyers political theorist teachers parents students every one of us can make all the difference
