

many crimes are made much more aware of by members of the public making more public concern.

**Islamophobia** – A dislike of or prejudice against islams or muslims.

**Amnesty** – To officially pardon or give official confirmation that no criminal action will be taken.

### Perceptions of Crime trends

When the media expresses a while lot of crime stories it impacts the public because research suggests that crime is on the decrease making many members of the public confused. According to the crime survey for England and Wales the **total police recorded crime decreased by 4% in England and wales to approximately 5.8 million offences in the 12 months ending June 2020 and the number of victims of total TCSEW crime including fraud and computer misuse decreased by 19% in April to June 2020. (Could have been impacted by corona virus lockdown (march 2020)**

However, crime statistics for England and Wales suggest that levels are stable. For example, they believe that there was a 6% decrease in the overall number of homicides following a period of increases and no percentage change in the number of police recorded offenses involving firearms.

The impact the media has is the anxiety and the fear for the people that they may fall victim for example The ‘Good Childhood report’ stated how many children were affected because of something that was occurring in their local area. Many parents keep their kids indoors because of what the media has stated, many keep their children inside because of over reporting of abductions, sexual abuse and being posed by paedophiles.

### Stereotyping of Criminals

As of the medias impact many members of the public begin to form stereotypes of criminals and are seen as poor and uneducated members of society. The impact of this is that the public may be mistrusting to these certain groups and may become angry and fear crime making them most likely have harsher sentences. One example of stereotyping a criminal is in the UK is young people are seen as ‘hoodie’ and thugs. This impacts the public perception by suggesting that the police would be more likely to stop and search people that fall victim under the stereotype of a criminal because of what they have seen on the media.
