*Persecution and the Art of Writing* Leo Strauss, 2024-05-31 The locus classicus of Strauss's theory of esoteric writing which he emphatically exemplifies in three brilliant and influential interpretations Nathan Tarcov University of Chicago The essays collected in *Persecution and the Art of Writing* all deal with one problem the relation between philosophy and politics Here Strauss sets forth the thesis that many philosophers especially political philosophers have reacted to the threat of persecution by disguising their most controversial and heterodox ideas It is Strauss's thesis that few if any of the Great Books in philosophy and political philosophy can simply be read no matter how vigorously They have to be studied and in a special way for if they are truly great it is probably their intention to conceal as well as to reveal The bulk of *Persecution and the Art of Writing* is devoted to three long essays on the art of reading Maimonides *Guide for the Perplexed* Judah Halevi's *Kuzari* and Spinoza's *Tractatus Theologico Politicus* These essays are so closely reasoned so brilliant in their analysis of details of style and argument that it is impossible fairly to summarize them Irving Kristol Commentary

**Persecution and the Art of Writing** Leo Strauss, 1976 [Persecution and Art of Writing](#) Laura Strauss, 1952-06-01 **Perversion and the Art of Persecution** Sean Noah Walsh, 2012-03-14 In this critical work on the political thought of Leo Strauss Sean Noah Walsh addresses Leo Strauss's claims about esotericism in the philosophic texts of Plato He challenges Strauss's understanding of esoteric writing as an attempt by Plato to secretly encode the highest truths exclusively between the lines in order to avoid persecution Indeed through the character of Socrates the speaker with whom Plato is inextricably associated Walsh asserts that Plato's exoteric writings were sufficiently incendiary and provocative to demonstrate that a fear of persecution was not his highest priority The politics that follow from Strauss's thought depend on the interpretation of these Platonic philosophical bases and by analyzing how the problem of fear has been confronted in the works of Plato and Leo Strauss Walsh offers a direct and thorough account of the politics that emerge from Strauss's esoteric reading of political philosophy Applying Lacanian psychoanalysis Walsh investigates the discourse of Straussian esotericism and examines Plato's writing for examples of exoteric risk subjecting both Plato and Strauss's writings to Lacan's psychoanalytic technique for interpreting the function of desire in discourse Given the continuing influence of Strauss's ideas on contemporary politics particularly within American foreign policy Walsh's examination of this Straussian esotericism for these effects will prove an interesting read for political theorists international relations scholars and philosophers alike [Writing, the Political Test](#)

plague almost every recent theory about politics the myth of the given the myth of science myths of theory the myth of tradition and the myth of the political He argues that these all alienate political theory from substantive inquiry and actual practice Contributors include Richard E Flathman Russell L Hanson George Kateb Paul F Kress J Donald Moon John S Nelson J G A Pocock Herbert G Reid Ira L Strauber Nathan Tarcov and Sheldon S Wolin They respond on behalf of projects in the new history of political theory epic theory phenomenology traditional theory and political deconstruction These discussions also address the theories of Hans Georg Gadamer Jürgen Habermas Karl Marx Leo Strauss Alain Touraine and Ludwig Wittgenstein At the conclusion of the volume Gunnell reconsiders his arguments in light of the respondent's remarks His challenges thus provide a series of confrontations both exciting and provocative among major theorists The result is a lively debate about what political theory is how it relates to political history and practice and how it involves epistemology The authors probe a broad range of questions about practices of politics and traditions of discourse and they identify priorities for the future of the field

*Esoteric Transfers and Constructions* Mark Sedgwick, Francesco Piraino, 2021-02-27 Similarities between esoteric and mystical currents in different religious traditions have long interested scholars This book takes a new look at the relationship between such currents It advances a discussion that started with the search for religious essences archetypes and universals from William James to Eranos The universal categories that resulted from that search were later criticized as essentialist constructions and questioned by deconstructionists An alternative explanation was advanced by diffusionists that there were transfers between different traditions This book presents empirical case studies of such constructions and of transfers between Judaism Christianity and Islam in the premodern period and Judaism Christianity and Western esotericism in the modern period It shows that there were indeed transfers that can be clearly documented and that there were also indeed constructions often very imaginative It also shows that there were many cases that were neither transfers nor constructions but a mixture of the two
