## **Practical Occultism:**

Practical Occultism Helena Petrovna Blavatsky,1967 Occultism as a way of life versus the occult arts **Studies in Occultism: Practical occultism. Occultism versus the occult arts. The blessings of publicity** Helena Petrovna Blavatsky,1910 *Practical Occultism and Occultism Versus the Occult Arts* H. P. Blavatsky,2013-10 This is a new release of the original 1923 edition **Practical Occultism** Helena Petrovna Blavatsky,2005-12 This scarce antiquarian book is a facsimile reprint of the original Due to its age it may contain imperfections such as marks notations marginalia and flawed pages Because we believe this work is culturally important we have made it available as part of our commitment for protecting preserving and promoting the world s literature in affordable high quality modern editions that are true to the original work Theoretical and Practical Occultism Helena Petrovna Blavatsky,2018-02-21 While the study of theoretical Occultism is harmless and may do good practical Occultism being the Science of Good and Evil is fraught with perils and pitfalls The student of Occult Arts who is not intellectually or ethically fit will be unable to discern the Right from the Left Path He will bring on himself and his family unexpected woes and sorrows never suspecting whence they come Only Absolute Unity physical and metaphysical can provide safe passage to the other shore Whoever indulges after having pledged himself to Occultism in the gratification of a worldly love or lust must feel an almost immediate result that of being irresistibly dragged from the impersonal divine state down to the lower plane of matter Practical Occultism Helena Petrovna Blavatsky,1939 *Practical Occultism* William Quan Judge,1949 **Studies in Occultism** Helena Petrovna Blavatsky,2014-04 Studies in Occultism by H P Blavatsky Practical Occultism Occultism Versus the Occult Arts Occultism is not magic It is comparatively easy to learn the trick of spells and the methods of using the subtler but still material forces of physical nature the powers of the animal soul in man are soon awakened the forces which his love his hate his passion can call into operation are readily developed But this is Black Magic Sorcery For it is the motive and the motive alone which makes any exercise of power become black malignant or white beneficent Magic It is impossible to employ spiritual forces if there is the slightest tinge of selfishness remaining in the operator For unless the intention is entirely unalloyed the spiritual will transform itself into the psychic act on the astral plane and dire results may be produced by it The powers and forces of animal nature can equally be used by the selfish and revengeful as by the unselfish and the all forgiving the powers and forces of spirit lend themselves only to the perfectly pure in heart and this is Divine Magic Practical Occultism Walter Winston Kenilworth,2013-11 An excerpt from the second chapter Practical Occultism is a method of realizing the deeper psychological and spiritual life potentially existent within every creature and which bears a practical significance to the daily experience of ordinary life Higher truth vision and life are not only for the great and eventful occasion they should as well serve in every moment even the most commonplace for it is only as the psychological life becomes the normal every day life that the path can be trodden and the goal finally reached Above all to understand such a practical view of occultism we must

get away from the obsolete perverted conception of occultism which obtained in those earlier days when interpretation of the occult had its first apostolate in the Blavatsky coterie With the coming of Oriental philosophers and psychologists to this country and with the efforts of scientific investigators such as Muller Carus Rhys Davids Oldenburg and others a higher understanding of the truly occult was given expression The sham side the element of the ominous and of the mystery mongering was divested of its meaning and influence and for it was substituted that religio psychological definition which is to day accepted by leading thinkers Occultism is the modern revelation and symbolism of an ancient and well guarded system of psychological philosophy involving a knowledge of psychology in comparison with which our modern psychology is relatively less fundamental Occultism finds its greatest significance in the attainment of self knowledge that attainment which was suggested by the Greek of Pre Socratic times This self knowledge is not merely a metaphysical conception of the nature of man It has nothing to do with philosophy for it is purely psychological It is a psychical discovery of the essence and action of the mind and the control and direction of the will in relation to it The mind is usually considered either as an intangible abstract something having a nominal existence while its real existence is confused with the physical brain There are even those who think themselves enlightened who persist in such a view They speak of all thought as inseparably dependent upon the action of the molecules of the brain and the condition of the nerve centers To them thought is but a secretion of the brain This opinion is of little importance apart from a philosophical sense but in the light of any system of metaphysical speculation it becomes a dividing line between the materialistic and spiritual thought The average person accustomed to viewing the external perceptible universe as the solely existent accords to it a greater reality than to his personal self The visible and the tangible are alone real to him The personal self is regarded as a shadowy reflection of the actual external world Naturally his relation in conduct to such a theory is expressive of the material attitude taken It is necessary to discuss the philosophical side of occultism because this is of singular importance and because it is by it alone that occultism can be understood and put into practice So long as man believes himself to be identified with the outer world so long as he believes he is under its provision and control so long as he disbelieves in the superior reality of himself so long will he remain ignorant of the occult and unaware of the great blessings and power which such knowledge imparts

**Studies in Occultism** H. P. Blavatsky, 2019-01-09 Occultism is not magic It is comparatively easy to learn the trick of spells and the methods of using the subtler but still material forces of physical nature the powers of the animal soul in man are soon awakened the forces which his love his hate his passion can call into operation are readily developed But this is Black Magic Sorcery For it is the motive and the motive alone which makes any exercise of power become black malignant or white beneficent Magic It is impossible to employ spiritual forces if there is the slightest tinge of selfishness remaining in the operator For unless the intention is entirely unalloyed the spiritual will transform itself into the psychic act on the astral plane and dire results may be produced by it The powers and forces of animal nature can equally be used by the selfish and

revengeful as by the unselfish and the all forgiving the powers and forces of spirit lend themselves only to the perfectly pure in heart and this is DIVINE MAGIC      **Practical Occultism** Walter Winston Kenilworth,1921      **Practical Occultism, And, Occultism Versus the Occult Arts** Helena Petrovna Blavatsky,1912      **Practical Occultism** Ernest Loomis,1996-09
